The following are the conditions of sale :—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

| DEPOSIT. |
|---|
| When the amount bid is less than Rs. 1,200 per chest, Rs 200 per chest. |
| On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest. |
| On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest. |
| And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400. |

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand

tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five:

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

*Article of the Convention above referred to.*

*Article VI.*—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for "the French Government, and delivered upon requisition duly made by the Agents of His "Most Christian Majesty, or by the persons duly appointed by them, the number of chests "so applied for, provided that such supply shall not exceed three hundred chests in each year, "and the price for the same shall be determined by the average rate at which opium shall "have been sold at every such periodical sale, it being understood that if the quantity of "opium applied for at any one time shall not be taken on account of the French Government "by the Agents of His Most Christian Majesty within the usual period of delivery, the "quantity so applied for shall nevertheless be considered as so much in reduction of the three "hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to "be addressed to the Governor-General at Calcutta within thirty days after notice of the "intended sales shall have been published in the *Government Gazette*."

## RETIREMENTS.

*The 1st January, 1881.*

No. 1.—With the sanction of Her Majesty's Government, the Right Hon'ble the Governor General in Council is pleased to notify that :—

I. During the year 1881 ninety (90) officers of the Staff Corps, and Cavalry and Infantry of the Indian Army, will be permitted to retire from the service, receiving, in addition to the pension to which they may be entitled by length of service under existing regulations, not exceeding the full-pay pension of a Colonel (£456-5-0 per annum), an annuity representing the estimated value of their prospective claim to the Colonel's allowance, or its capitalized value as they may prefer.

II. This offer is restricted to substantive Lieutenant-Colonels who shall have completed 28 years' service from the date of first commission, on or before the date from which they apply to retire, who may either, 1st, have been appointed to one of the Staff Corps on or before the 12th September 1866, and can claim the Colonel's allowance under the provisions of G. G. O. No. 808 of the 26th September 1866, or 2ndly, may be entitled, under G. O. G. G. of the 12th September 1862, to the Colonel's allowance after 12 years' service in the rank of Lieutenant-Colonel.

III. The number allowed to retire under these conditions will be distributed as follows :—

| | | |
|---|---|---|
| For Bengal | ... | 40 |
| „ Madras | ... | 30 |
| „ Bombay | ... | 20 |
| TOTAL | ... | 90 |

In the event of the whole of the retirements allotted to a particular presidency not being taken up in that presidency, those remaining will be distributed in such manner as may be determined by the Government of India.

IV. Applications to retire will be considered and disposed of successively according to priority of proposed dates of retirement until the number of retirements allotted to the service shall have been accomplished, when retirements under this order will cease for the year. In the event of its becoming necessary to select one from among two or three applicants for retirement on the same day, preference will be given according to seniority from the date of first commission.

V. Officers wishing to retire under the terms of this order must, whether in or out of India, submit their applications to the office of the Adjutant-General of their respective presidencies, through the heads of their departments, naming such prospective dates for their retirements as will admit of the receipt of their applications by the Adjutant-General on or before the date named, such date not to be earlier than the 1st April 1881.

VI. Officers whose applications are accepted, will be gazetted out from the dates named by themselves, but will continue to perform their duties and receive the pay and allowances of their positions until officially informed of their removal from the effective list, either by direct communication, or by publication in the Gazette at the station at which they may be serving.

VII. Officers retiring under this arrangement will forego both the good service pension, if they are in receipt thereof, and all claim to bonus compensation under the terms of the despatch of the 8th of August 1866,* No. 160.

* G. G. O. No 808 of 26th September 1866.

VIII. Applicants to retire must state—

*1st.*—Their rank and service.

*2nd.*—Their age (supported by certificate of birth, or, in its absence, by a formal declaration).

*3rd.*—Whether they wish to receive commutation for their prospective allowances in the shape of an annuity, or to capitalize its value; if the latter, whether they desire to receive payment of the capitalized value wholly, or in part, in India, or in England. Officers who desire to receive the capitalized value of the annuity must attach to their applications a certificate in the form given in Appendix A. In the case of officers retiring out of India, the health certificate required will be called for and furnished under instructions from the India Office in London.

*4th.*—Their address subsequent to retirement.

*5th.*—They must also attach to their application or arrange to forward subsequently a no-demand certificate dated within three months of the date of their proposed retirement.

IX. The table given in Appendix B shows the rates at which the expectation of the Colonel's allowance will be calculated in carrying this order into effect in the case of officers of various ages and service.

X. For the purpose of arriving at the amount payable in each case, whether as an annuity or in a single payment, officers' ages will be calculated from their birthday next succeeding the date from which they propose to retire, and the number of years they have to serve before becoming entitled to the Colonel's allowance will be calculated from the date of the proposed retirement. When the period to serve contains a fraction of a year, the fraction, if it be six months or under six months, will be excluded altogether; if it exceeds six months, it will be reckoned as a complete year.

XI. Payments of the *capitalized value* of the annuity made in India under this order will be at the rate of exchange fixed for the adjustment of financial transactions between the Imperial and Indian Governments for the time being. Capitalized annuities of officers retiring in India can, on receipt of telegram announcing retirement, be paid to their agents in England, under power of attorney to be lodged at the India Office.

XII. Officers who elect to receive an annuity in preference to the capital sum, will not, after their retirements have appeared in the Gazette, be allowed to capitalize such annuity under the provisions of this order; and it is to be understood that no separate applications of individual officers to retire after the present retirements have been allotted will be entertained on the basis of this order.

XIII. Officers of the half-pay list of the Staff Corps will be permitted, if disposed to retire from the service, to avail themselves of this scheme of retirement, provided they are eligible thereto by the fulfilment, previously to their transfer to the half-pay list, of all the conditions required. The time passed by an officer on the half-pay list of the Staff Corps will not count towards the 12 years in the grade of Lieutenant-Colonel required to qualify for promotion to the Colonel's allowance.

XIV. No application from officers to cancel their retirement, or to change the date of such retirement, will be entertained after it has been announced in the official Gazette of the presidency to which they belong.

## APPENDIX A.

I certify that I have examined Lieutenant-Colonel _____ of the _____ and find him to be in a state of health which affords the prospect of an average duration of life.

*Station and date.* *Surgeon.*

*N. B.*—The certificate to be in the handwriting of, and signed in India by, the Medical Officer in charge of the regiment; or, if the officer who applies to capitalize his annuity is not serving with a regiment, then by some other Civil or Military Medical Officer not under the rank of Surgeon-Major.

## NOTE.

*Barometric Pressure.*—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof., Papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

*Temperature.*—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

*Wind Resultant.*—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

*Cloud.*—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 1·0.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from the traces of the barograph and thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

*Meteorological Reporter to the Government of India.*

METEOROLOGICAL OFFICE, INDIA,
*The 3rd January* 1881.

## Remarks on Traffic of the East Indian Railway for the five weeks ending 27th November 1880.

THE approximate figures for the period are as follows :—

| | Coaching. | | Goods. | | Total. | Material carried on revenue account, including maintenance. | |
|---|---|---|---|---|---|---|---|
| | No. | Rs. | Mds | Rs. | Rs. | Mds. | Rs. |
| 1880 ... ... ... | 786,155 | 12,67,118 | 63,84,962 | 29,62,370 | 42,29,488 | 18,07,791 | 67,535 |
| 1879 ... ... ... | 702,022 | 12,50,123 | 65,38,533 | 26,92,044 | 39,42,166 | ... | ..... |
| Increases ... ... ... | 84,133 | 16,996 | 48,429 | 2,70,326 | 2,87,322 | 18,07,791 | 67,535 |
| Decreases ... ... ... | ... | ... | ..... | ..... | ..... | ..... | ..... |

A marked improvement is apparent in the revenue derived from both coaching and goods during November.
The fluctuations in goods traffic which call for comment are :—

| *Increases.* | *Decreases.* |
|---|---|
| Cotton. | Coal. |
| Ghee and oil. | Government stores. |
| Grain. | Hides and horns. |
| Indigo. | Railway material, Foreign. |
| Iron. | Saltpetre. |
| Jaggree. | |
| Piece-goods. | |
| Salt. | |
| Seeds. | |
| Spelter. | |

### INCREASES.

Cotton ... ... ... ... ... ... Mds. 1,65,760 Rs. 2,24,660.

Owing to an advance of prices in the Calcutta market a considerable quantity of this staple was despatched from the stations in the North-West above Cawnpore.

Ghee and oil ... ... ... ... ... ... Mds. 2,980 Rs 10,750.

The demand in Bengal being good, and favourable prices obtainable, despatches were heavier than usual.

*Grain.*

| | *Increase.* | | *Decrease.* | |
|---|---|---|---|---|
| | Mds. | Rs. | Mds | Rs. |
| Rice ... ... ... | ..... | 32,140 | 51,670 | ... |
| Wheat ... ... ... | 2 26,170 | 17,330 | ..... | ..... |
| Other grains ... ... ... | 81,630 | 20,710 | ... .. | ..... |
| Pulses ... ... ... | 48,970 | ..... | ..... | 1,680 |
| Total ... | 3,56,770 | 70,180 | 51,670 | 1,680 |
| Net increase ... | 3,05,100 | 68,500 | ..... | ..... |

The rice traffic earnings have improved owing to a demand having arisen at Cawnpore, Agra, and other North-West stations where there was a partial failure of the autumn crops, supplies being sent up from loop-line stations.

The decrease in weight is due to a falling off in rice despatched *viâ* Allyghur last year to Loodiana for the troops.

Towards the middle of November the Calcutta market became brisk owing to the large demand for *wheat* for London, and prices rose 9 per cent.

Indigo ... ... ... ... ... .. Mds. 25,180 Rs. 58,500

The season appears to have been a good one and the produce to have been sent down for sale earlier than usual.

Iron ... ... ... ... ... ... Mds. 19,580 Rs. 32,760

This increase is at Howrah, whence despatches of 1st and 2nd class iron were made chiefly for the markets of Cawnpore, Agra, and Delhi.

Juggree ... ... ... ... ... .. Mds 19,780 Rs. 12,550

The greater portion of this increase is in Jaggree received from the Oudh State Railway *viâ* Bankipore, and despatched chiefly to Howrah and *viâ* Jubbulpore to stations west of it, and *viâ* Agra to Rajpootana

Piece-goods ... ... ... ... ... ... Mds. 19,830 Rs. 37,750

The increase is at Howrah and appears in the first week of the period under review when active business was resumed after the holidays. Despatches were principally to Cawnpore and Delhi.

Salt ... ... ... ... ... ... Mds. 39,630 Rs 15,980

In 1879 the salt golahs at Howrah were closed for a portion of the period, hence the small increase this year.

Seeds ... ... ... ... ... Mds 2,13,050 Rs. 77,730

Calcutta prices for linseed were favourable to sellers, and there appears to have been a good demand

Spelter ... ... ... ... ... Mds. 7,380 Rs. 12,220

This increase, together with those shown against copper and brassware, appear at Howrah.

### DECREASES.

| | *Increase.* | | *Decrease.* | |
|---|---|---|---|---|
| | Mds. | Rs. | Mds. | Rs. |
| Coal, up ... ... ... | 29,660 | ..... | ..... | 17,220 |
| Locomotive coal in 1879 ... ... | +16,038 | ..... | ..... | —5,708 |
| Total ... | 45,698 | ..... | ..... | 11,512 |
| Down coal ... | . . | ..... | 29,550 | —2,360 |
| Net ... | +16,148 | ... .. | ..... | —13,872 |

In upwards coal, although the quantity carried has increased, the receipts have fallen. This is owing to the despatches from Giridi this year being for shorter distances than last.

Government, Commissariat, and Ordnance Stores . ... ... Mds. 16,420 Rs. 50,700

Despatches to the Frontier and to the several Government depôts were limited this year.

Hides and Horns ... ... ... ... ... Mds. 36,820 Rs. 21,280

For some months past the traffic in hides has been below that of last year

The reason appears to be that home advices are discouraging and supplies short.

Railway Materials, Foreign ... ... ... ... ... Mds. 1,02,560 Rs. 1,97,630

This very large decrease is due to the limited despatches of material and stock for Foreign lines this year.

In 1879 we were busy despatching largely for the Kandahar State Railway.

Saltpetre ... ... ... .. ... ... Mds. 36,670 Rs. 14,180

In 1879 there was an active business in Saltpetre for export to America and other countries. This year demand has been nominal.

Train-mileage for the period has been, excluding maintenance,—

| | Coaching. | Goods | Total. |
|---|---|---|---|

Shunting-mileage has increased by 758 hours and this is due to the location of a shunting engine at Patna

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

| DEPOSIT. |
|---|
| When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. |
| On bids of Rs. 1,200 and upwards, but less than Rs 1,600 per chest, Rs 300 per chest. |
| On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest |
| And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400. |

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 500 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the

same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

*Article VI.*—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

*An Act to provide for the safe carriage of Grain Cargoes by Merchant Shipping.* [*7th September 1880.*]

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Short title and construction. 17 & 18 Vict., c. 104, &c.

1. This Act may be cited as the Merchant Shipping (Carriage of Grain) Act, 1880, and shall be construed as one with the Merchant Shipping Act, 1854, and the Acts amending the same, and together with those Acts may be cited as the Merchant Shipping Acts, 1854 to 1880.

Commencement of Act.

2. This Act shall come into operation on the first day of January, one thousand eight hundred and eighty-one (which day is in this Act referred to as the commencement of this Act).

Obligation to take precautions to prevent grain cargo from shifting.

3. Where a grain cargo is laden on any British ship all necessary and reasonable precautions (whether prescribed by this Act or not) shall be taken in order to prevent the grain cargo from shifting.

If such precautions have not been taken in the case of any such ship, the master of the ship and any agent of the owner who was charged with the loading of the ship or the sending her to sea, shall each be liable to a penalty not exceeding three hundred pounds, and the owner of the ship shall also be liable to the same penalty, unless he shows that he took all reasonable means to enforce the observance of this section, and was not privy to the breach thereof.

Precautions against shifting of grain cargo laden in port in Mediterranean or Black Sea, or on coast of North America.

4. Where a British ship laden with a grain cargo at any port in the Mediterranean or Black Sea is bound to ports outside the Straits of Gibraltar, or where a British ship is laden with a grain cargo on the coast of North America, the following precautions to prevent the grain cargo from shifting shall be adopted ; that is to say,

(*a*) There shall not be carried between the decks, or, if the ship has more than two decks, between the main and upper decks, any grain in bulk, except such as may be necessary for feeding the cargo in the hold, and is carried in properly constructed feeders.

(*b*) Where grain (except such as may be carried in properly constructed feeders) is carried in bulk in any hold or compartment, and proper provision for filling up the same by feeders is not made, not less than one-fourth of the grain carried in the hold or compartment (as the case may be) shall be in bags supported on suitable platforms laid upon the grain in bulk; Provided that this regulation with respect to bags shall not apply—

(i) To oats, or cotton seed, nor

(ii) To a ship which is a sailing ship of less than four hundred tons registered tonnage, and is not engaged in the Atlantic trade; nor

(iii) To a ship laden at a port in the Mediterranean or Black Sea if the ship is divided into compartments which are formed by substantial transverse partitions, and are fitted with longitudinal bulkheads or such shifting boards as hereafter in this section mentioned, and if the ship does not carry more than one-fourth of the grain cargo, and not more than one thousand five hundred quarters, in any one compartment, bin, or division, and provided that each division of the lower hold is fitted with properly constructed feeders from the between decks; nor

(iv) To a ship in which the grain cargo does not exceed one-half of the whole cargo of the ship, and the rest of the cargo consists of cotton, wool, flax, barrels or sacks of flour, or other suitable cargo so stowed as to prevent the grain in any compartment, bin, or division from shifting.

(*c*) Where grain is carried in the hold or between the decks, whether in bags or bulk, the hold or the space between the decks shall be divided by a longitudinal bulkhead or by sufficient shifting boards which extend from deck to deck or from the deck to the keelson and are properly secured, and if the grain is in bulk are fitted grain-tight with proper fillings between the beams.

(*d*) In loading, the grain shall be properly stowed, trimmed, and secured.

In the event of the contravention of this section in the case of any ship, reasonable precautions to prevent the grain cargo of that ship from shifting shall be deemed not to have been taken, and the owner and master of the ship and any agent charged with loading her or sending her to sea shall be liable accordingly to a penalty under this Act.

Provided that nothing in this section shall exempt a person from any liability, civil or criminal, to which he would otherwise be subject for failing to adopt any reasonable precautions which, although not mentioned in this section, are reasonably required to prevent grain cargo from shifting.

Exemption from precautions specified in this Act for ships laden in Mediterranean or Black Sea, or on coast of North America.

5. The precautions required by this Act to be adopted by ships laden with a grain cargo at a port in the Mediterranean or Black Sea, or on the coast of North America, shall not apply to ships loaded in accordance with regulations for the time being approved by the Board of Trade; nor to any ship constructed and loaded in accordance with any plan approved by the Board of Trade.

Notice by master of kind and quantity of grain cargo.

6. Before a British ship laden with grain cargo at any port in the Mediterranean or Black Sea, bound to ports outside the Straits of Gibraltar, or laden with grain cargo on the coast of North America, leaves her final port of loading, or within forty-eight hours after leaving such port, the master shall deliver or cause to be delivered to the British Consular Officer, or, if it is in Her Majesty's dominions, to the principal Officer of Customs at that port, a notice stating—

(1) The draught of water and clear side, as defined by section five of the Merchant Shipping Act, 1871, and section four of the Merchant Shipping Act, 1873, of the said ship after the loading of her cargo has been completed at the said last port of loading; (34 & 35 Vict., c. 110; 36 & 37 Vict., c. 85)

(2) And also stating the following particulars in respect to the grain cargo; namely,

(*a*) The kind of grain and the quantity thereof, which quantity may be stated in cubic feet, or in quarters, or bushels, or in tons weight; and

(*b*) The mode in which the grain cargo is stored; and

(*c*) The precautions taken against shifting.

The master shall also deliver a similar notice to the principal Collector or other proper officer of Customs in the United Kingdom, together with the report required to be made by the Customs Consolidation Act, 1876, on the arrival of the ship in the United Kingdom. (39 & 40 Vict., c. 36, ss. 50, 51)

Every such notice shall be sent to the Board of Trade as soon as practicable by the officer receiving the same.

If the master fails to deliver any notice required by this section, he shall be liable to a penalty not exceeding one hundred pounds: Provided always, that the Board of Trade may, by notice published in the *London Gazette*, or in such other way as it may deem expedient, exempt ships laden at any particular port or any class of such ships from the provisions of this section.

Penalty for false statement in notice.

7. Any master of a ship, who in any notice required by this Act wilfully makes any false statement or wilfully omits any material particular, shall be liable to a penalty not exceeding one hundred pounds.

Power of Board of Trade for enforcing of Act.

8. For the purpose of securing the observance of this Act, any officer having authority in that behalf from the Board of Trade, either general or special, shall have the same power as an Inspector appointed under the Merchant Shipping Act, 1854, and shall also have power to inspect any grain cargo, and the mode in which the same is stowed. (17 & 18 Vict., c. 104)

Prosecution of offences and recovery of penalties.

9. Every offence punishable under this Act may be prosecuted summarily and every penalty under this Act may be recovered and

enforced summarily in like manner as offences and penalties under the Merchant Shipping Act, 1854, and the Acts amending the same.

11. Section twenty-two of the Merchant Shipping Act, 1876, is hereby repealed as from the commencement of this Act:

The mean pressure, temperature, &c., are deduced from observations made 6 h, 10 h, 16 h and 22 h, and from the traces of the barograph and thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2° 6 lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

## Report of Fluctuation of Traffic on the Tirhoot State Railway for the month of November 1880.

THE total quantity of goods carried during the month of November 1880 aggregated 2,07,447 maunds, as compared with 1,73,225 maunds carried during the corresponding period of 1879, and 1,50,118 maunds as carried during the previous month, showing an increase of 34,222 maunds in the one case, and of 57,329 maunds in the other. Six hundred and fifteen maunds of railway materials, carried during November 1879, have not been taken into account.

Of the several increases and decreases, the following are the principal ones and worthy of separate explanation :—

| | Mds. |
|---|---|
| INCREASES. | |
| *Coal.*—Due to the importation of over 12,000 maunds of coal by the Public Works Department at Durbhunga for brick-burning purposes ... ... ... ... ... | 12,140 |
| *Ginger.*—The new crops are in, and they are being exported in abundance to Patna and up-country markets ... ... ... ... ... ... ... | 1,384 |
| *Gunny-bags.*—The quantity imported depends upon the amount of grains, &c., exported ... ... | 1,103 |
| *Indigo.*—The outturn of indigo this season is very large, and every concern in the district that might be expected to is despatching its indigo by railway. Indigo receives every attention in transit, and no delay of any sort has been occasioned to a single box ... ... ... | 6,443 |
| *Iron.*—This depends upon local requirements, being imported by several Indigo Concerns, the Road Cess, Raj, and Public Works Department ... ... ... ... ... | 1,802 |
| *Lime and Kunkur.*—This also depends on works in construction in the district. The Raj Durbhunga are the only large importers worthy of notice ... ... ... ... ... | 1,981 |
| *Oil-cakes.*—This is outward traffic, and the increase is steady, as might be expected ... ... | 1,426 |
| *Piece-goods, English.*—This is inward, and imported mostly from Howrah to Durbhunga and Muzaffarpore. The piece-goods trade in the district shows a steady increase, and will in course of time develop into one of very large dimensions ... ... ... ... ... | 6,793 |
| *Salt.*—As rivers become unnavigable, this traffic leaves boats for the railway ... ... ... | 2,649 |
| *Seeds, oil.*—Taking into consideration the very limited demand in foreign markets, the quantities of oil-seeds exported during the month is very large. There has, however, been slight inclination towards extra export to Howrah and Calcutta ... ... ... ... ... | 14,099 |
| *Sundries.*—This increase is also steady and cannot well be explained ... ... ... | 4,595 |
| *Timber.*—Messrs. Deer & Co. of Monghyr are exporting very large quantities of Nepal timber down the river Gunduck to their depôt at Patna, and a few consignments, amounting to 6,339 maunds, have been despatched during the month by railway. The whole of this trade will next year be drawn to the railway ... ... ... ... ... ... ... | 6,257 |
| DECREASES. | |
| *Food-grains.*—Owing to abundant harvest everywhere, the prices of food-grains have fallen very much, and the markets everywhere are overstocked. This of course greatly decreases the export ... | 16,720 |
| *Hides and Horns.*—This depends upon local collection, which decreases as the health of cattle improves ... ... ... ... ... ... ... ... | 1,053 |
| *Saltpetre.*—Owing to the introduction by the Government of several stringent rules in manufacturing saltpetre, several firms have closed business, and the trade will for a time be checked ... | 7,621 |
| *Tobacco.*—Prices of tobacco having fallen, export of tobacco has decreased. The new crop is expected shortly ... ... ... ... ... ... ... | 2,542 |

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of

the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of

opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

*Article of the Convention above referred to.*

*Article VI.*—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

The mean pressure, temperature, &c., are deduced from the traces of the barograph and thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

| DEPOSIT. |
|---|
| When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest. |
| On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest. |
| On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest. |
| And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400. |

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand

tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious bidding designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 500 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

*Article of the Convention above referred to.*

*Article VI.*—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

## Bill of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following papers are published for general information:—

## THE REPORT OF THE COMMISSION

ON

## THE LABOUR DISTRICTS EMIGRATION ACT.

WE the Commissioners appointed by the Bengal Government Resolution of the 13th December 1880, to consider and amend the Labour Districts Emigratoin Act, VII (B.C.) of 1873, have the honor to make the following report.

2. We submit a copy of the proceedings at our meetings, and the draft of a Bill embodying the amendments which we consider desirable in the system of inland labour transport. Owing to the illness of Mr. Forsyth, Assistant Secretary to the Bengal Government in the Legislative Department, we have had no professional assistance in drawing up the Bill. This fact may perhaps serve to explain or extenuate any defects that may be found in its form and phraseology.

3 From the official and other papers laid before us, and from our own personal knowledge of the subject, we find that the present "Labour Districts Emigration Act" is defective in respect chiefly of the points numbered I to IV below—

I.—In that it does not afford sufficient encouragement to free emigration.

II.—In that it imposes unnecessary restrictions upon sirdari recruiting.

III.—In that it fails to provide for the enforcement of contracts made otherwise than under the provisions of the Act itself, even in the case of imported labourers.

IV.—In respect of the remedies provided for employers in the event of the unlawful absence, idleness, or desertion of their contract labourers.

4. The proceedings of the Bengal Legislative Council show that in 1873 the local Government recognized in some degree the propriety of encouraging "free emigration" and "free recruiting;" by the former of which terms was apparently meant the spontaneous and unsolicited emigration of natives of other parts of India to the labour districts, while the latter term was intended to apply to a system of inducing such natives to emigrate, and furnishing them with the means of doing so, carried on by, or on behalf of employers, without any supervision or control on the part of Government officers. The Lieutenant-Governor (Sir G. Campbell) seems indeed to have held that it was only the difficulty and expense then attending the conveyance of labourers to Assam which rendered it expedient to give to both employer and labourer the protection of a special law. Had communication been easy, and emigration for the purpose of finding employment common, no case would, in his view, have existed for applying any other than the ordinary law of master and servant. Sir G. Campbell does not, however appear to have fully noticed the difficulties attendant upon the control of native imported labour in a country like Assam, and the impossibility of working it successfully without some more stringent sanctions than are afforded by the ordinary contract law. He did not specially consider whether the ordinary law of master and servant was in itself sufficient to meet the exigencies of the case. His first idea therefore, when amending Act II (B.C., of 1870, was to allow any native of India to go as a free emigrant to the labour districts, but not to recognize any contract made by him before his arrival

there, unless it were made under the provisions of the Labour Act. After arrival, this free immigrant might enter into any contract he pleased, but only under the ordinary law. He would be liable merely in damages if he broke it; and it was, owing to the competition for labour in the districts, generally to his interest to break it as soon and as often as he could. It was moreover at that time practically impossible for a native of the districts of Western Bengal and Behar to transfer himself and his family to the labour districts without substantial assistance in money from some source or other. But the scheme proposed by Sir. G. Campbell held out absolutely no inducements to an employer to incur the risk of making advances to defray the expenses of such emigration. While the labour law and this suggestion of the Lieutenant-Governor were under the consideration of the Bengal Council, the anticipations of scarcity in Behar gave the subject of emigration increased importance It was contemplated that Government and private employers desiring labour should assist emigrants to reach the labour districts, and in order to draw forth such assistance from the tea planters, the Lieutenant-Governor modified his first suggestion so far as to propose that the law should recognize contracts made by emigrants at any place, and for any time, up to the limit of one year from the date of their arrival in the labour districts But this contract was still only to be an agreement enforcible by suit under the ordinary civil law of contract: and the provisions of section 7 of Act VII (B. C. of 1873, in which the suggestion was ultimately embodied, have, so far as the free recruiting of emigrants and placing them upon contracts in their own districts is concerned, remained practically a dead letter.

5. No employer at present enters into a contract with an intending emigrant in the district of the emigrant's home, otherwise than under the provisions of the Act, and the impression has been general, among both employers and the officers of Government, that to recruit labour in Bengal or Behar, otherwise than in accordance with these provisions, was altogether illegal. This misconception of the law was exposed in a circular to district officers issued the year before last by the Government of Bengal on the representation of the Chief Commissioner of Assam; but it is certain that, so far as the districts of the Assam Valley are concerned, very little advantage has been taken hitherto of the concession embodied in section 7 of the Act It is still not fully understood that a free emigrant may be put upon civil contract for a year in the district of his recruitment, and an Assam planter, especially in the remoter districts, does not care to run the risk of taking such an emigrant up to the garden at considerable expense, only to have him, in the absence of all legal engagement, enticed away by the liberal offers of some other employer, or to be met by a refusal to contract except upon the further payment of a substantial bonus.

6. In the case of Cachar and Sylhet there has been the same indifference to the permission given by the law to put an intending emigrant on contract for a year before he leaves his own district; but owing probably to the fact that transport to the Surma Valley has usually been by country boat, and subject therefore to but little interference and supervision, a practice has grown up of extensive free recruiting to supply the wants of those districts, the labourers being put upon contract for a year on their arrival there. (In some instances indeed the law has been directly evaded, and three-year contracts taken from such immigrants, on the theory that after arrival they became local labourers.) But, of course, no contract which is not made under the Act can be enforced otherwise than under the ordinary law, and though Act XIII of 1859 has been doubtfully applied to such local contracts in some districts, its provisions were obviously never intended to meet such cases. There is therefore a universal complaint that the employer is, in the absence of a penal law, insufficiently protected in respect of local contracts, and recourse is only had to the system of free recruiting in places where it has been tried, because the alternatives of contractors' recruiting and sirdari recruiting are under present restrictions unduly expensive.

7. The general conclusion arrived at not only by us but by all who have been consulted in the matter, is that, looking to the increased facilities of communication with the labour districts, to the fact that the conditions of labour there are now thoroughly understood by the class from which the labourers are drawn, to the greatly ameliorated condition of the labourers themselves in the tea districts, to the great importance of colonizing the

eastern and relieving the pressure of population in the western districts of the Bengal Provinces, and to the urgent necessity at the present time of assisting the tea industry in which so much capital has been embarked, no unnecessary obstruction should now be thrown in the way of the emigration of natives of other parts of India to the labour districts under contracts made as in the Act provided; and that nothing should interfere with the making of such contracts by free emigrants and other local and time-expired labourers within the labour districts themselves.

8. Those employers who can draw a sufficient supply of labour to their tea gardens, without incurring the expense of employing a regular agency to recruit and to execute contracts in the recruiting districts, may be left to make their own arrangements. When free emigrants arrive ready to work for such employers, or where local labourers or others are willing to enter into contracts with them under the Act, they should be allowed to do so, it being provided that every labourer placing himself under the penal provisions of the Act shall be entitled also to benefit by its protective clauses. If any employer objects to this, he should be at full liberty to make with his labourers any contract which the ordinary law of the country will recognize and enforce.

9 On the other hand, there are districts more remote, and employers so locally circumstanced, as to make it necessary in their case that the emigrants going to recruit their labour force should be actually put on contract before leaving the province of their engagement. We propose to meet their wants by relieving sirdari recruiting of many of the restrictions which now apply to it.

10. At present the garden-sirdar is regarded with suspicion by the law, by the Magistrates of recruiting districts, and by his employer. The law compels him to present himself at the Magistrate's court of the district where he proposes to work, that he may get his license countersigned—a requirement which at once brings him into dubious relations with the cutcherry amlah. His certificate is only allowed to run for six months. He is not permitted to travel in company with another sirdar, if the total number of their united bands of emigrants exceeds twenty. If he recruits more than twenty emigrants himself, he must take them to a contractor's depôt, becoming to all intents and purposes a contractor's recruiter. The local Magistrates in the recruiting districts have done little to help, and in some instances much to hinder, the work of even *bonâ fide* garden-sirdars. The sirdars are kept hanging about the courts while enquiries are made by the police in regard to their recruits; or while the Magistrate is absent from the station or engaged on other work. They have to fee underlings to assist them in getting registration effected, and they find it often impossible, owing to the delays and 'hustling,' to keep together the emigrants they have with pains collected. At the same time the employer finds that he on his part has no control over the sirdar when once he has left the garden. His contract was to remain and labour on the garden, and when he arrives at his home, he not unfrequently ignores his employer entirely, and decides to remain where he is. He sometimes disappears altogether with the advances made to him, or fritters the money away, and then declares his inability to move until he gets further supplies. He is tempted by contractors' recruiters and crimps to make over to them for a consideration emigrants recruited at his employer's expense; either filling up their places with worthless substitutes, or declaring that the labourers deserted after taking the advances he had been instructed to offer them. When he is placed under the control of a contractor or his local representative, as is sometimes done, he generally becomes merely a recruiter with a free license, who collects emigrants for the contractor rather than for his employer, receiving a commission on every man he brings in. It must be remembered also that the whole of the local influence of the contractors and their professional recruiters is thrown into the scale against the *bonâ fide* garden-sirdar, who works only by himself and for his employer

11. We have no doubt whatever that most of the abuses attendant upon the engagement of natives of India for emigration purposes have been attributable to the operations of professional contractors and recruiters: and we believe that the only way to put interprovincial emigration on a sound and natural basis, and at the same time to diminish the cost of procuring labour, is to sever all connection between garden-sirdars and contractors' depôts, and to give the widest scope to the working of the sirdari system; providing at the same time, in the employer's interests, for the effective control

of the sirdars when engaged on recruiting duty. The fiction that the garden-sirdar is sent back to induce only his own immediate relatives to return to the garden where he has prospered must be given up. He must be recognized as a recruiter, but as a recruiter directly commissioned by the employer himself, with personal knowledge of a labourer's life, and of whom his employer has personal knowledge. He should not be allowed to degenerate into a professional crimp, and his certificate should therefore run only for a limited period, and be renewable only with the consent of the Magistrate of the Labour District.

12 We should have been glad to see the contractor and his recruiter abolished altogether. But apart from the injury to individuals which the summary closing of an industry would certainly inflict, it is probable that there are some gardens which are not yet in a position to employ sirdari recruiters, and must for the present depend upon professional assistance in procuring labour Provision has, however, been made in the Bill drawn up by us for supplying by means of specially Licensed Local Agents the wants of new gardens when (as may be hoped will soon be the case) contractors and their depôts shall no longer exist.

13. On the subject of the defective provision in the present Act for the enforcement of locally-made contracts, and the treatment of unlawful absence and desertion of labourers in the labour districts, we can add nothing to the facts and arguments set forth in the letter to the Government of India from the Secretary to the Chief Commissioner of Assam, No. 2065 of the 28th October last, and its enclosures. It is only necessary emphatically to endorse all that is there said as to the absolute necessity of providing a penal contract law to secure employers in the tea districts against the serious losses to which they would be liable under a system of purely civil contract. But we hold equally strongly the view that, if a labourer consents to subject himself to a penal labour law, he is entitled to demand also the protection of law in respect of his general relations with his employer. If he surrenders to some extent his freedom, the law must compel the employer to provide for his wants, must secure to him his wage, must protect him against overwork, and must shield him from ill-usage of all kinds. This being so, it seems by far the simplest plan that *all* penal contracts to labour should be made under the same Act. There is good reason to believe that local and time-expired labourers in the tea districts are fully alive to their own interests, and not likely to be coerced or deceived into making any contract of the terms of which they are in doubt, or which they disapprove. In deference to the almost unanimous wish of the tea-planters, we propose to permit the extension of the maximum term of contract under the Act to five years; but we think it probable that in most cases local contracts will continue to be made for shorter terms, and the only effect of bringing such contracts under the Act will be, that there will be no sudden disruption or change in the position of imported labourers when the term of their first engagement comes to an end. They will simply make a fresh bargain in full knowledge of all its conditions, and will continue to receive the same protection as during the first term of their residence in the labour districts.

14. With these preliminary observations, explanatory of the general policy we have adopted, we proceed to notice in detail the amendments and alterations proposed by us in the Labour Law.

|---|---|---|
| Preamble | Preamble | The last clauses of the preamble have been altered to indicate the extended purview of the proposed law. Instead of providing merely for the protection of persons proceeding under contract to the labour districts, and for the enforcement of contracts of service entered into by them, it is proposed to provide generally for the enforcement of contracts of service made under the Act, and for the protection of all persons entering into such contracts. |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| 1 & 2 | 1 & 2 | The necessary verbal changes have been made in the 'Title' and 'Repealing Section.' |
| 3 | 3 | In the interpretation clause the following additions and alterations have been made :— |
| | | (1).—A definition of the term 'Local Government' has been given, by which the Lieutenant-Governor of Bengal and the Chief Commissioner of Assam respectively will exercise within the districts subject to their several jurisdictions the powers given by law to the 'Local Government.' There being two 'labour districts' under the Lieutenant-Governor, it is necessary to employ a phrase that will cover *both* the Lieutenant-Governor and the Chief Commissioner in respect of matters with which both must deal. |
| | | (2.)—To simplify the wording of many sections, the phrases 'Inspector' and 'Assistant Inspector' are defined to mean respectively 'Inspector of Labourers' and 'Assistant Inspector of Labourers' under the Act. |
| | | (3.)—To remove doubts, it is expressly stated that a 'garden-sirdar' may be either 'male or female.' The employment of female sirdar recruiters, who are generally the wives of garden-sirdars, is very desirable. The Magistrate can always refuse to countersign the certificate of any objectionable female. |
| | | (4.)—The 'Local Agent' is practically a new creation of this Bill, although in some districts, Calcutta Agency houses at present employ a class of local agents, taking out for them either contractors' or recruiters' licenses. His duties and responsibilities are defined in sections 21 to 23. The intention is that he should control the operations of garden-sirdars in the recruiting districts, provide them with the necessary funds, and act generally as the representative of his employer. He can never, under any circumstances, be a contractor; but with the special permission of his employers, and special license from Government, a local agent may be allowed to engage labourers for new gardens without the intervention of a garden-sirdar. |
| | | (5.)—A provision is made in section 45 for licensing 'sub-contractors,' and a 'sub-contractor' is here defined to be a contractor's local representative. It is better to bring such men under control by recognizing them formally in the Act, than, as at present, either to ignore them, or compel them to take out recruiters' licenses. |
| | | (6.)—The definitions of 'Emigrant' and 'Labourer' have been modified to suit the policy of the Bill. 'Emigrant' will now merely mean a Native of India, of the age of 16 years or upwards, who proceeds to emigrate, while 'labourer' will mean any labourer who has made a contract |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| | | under the Act. A definition of 'dependent' has been inserted to meet doubts which have arisen in practice, and save a separate section in the body of the Bill. |
| | | (7.)—'Estate' is defined to mean the lands upon which any labourers (as well labourers defined in this Act as others) have been engaged to labour. This, with the definition of 'Manager,' is necessary to meet the case of gardens employing imported free labour from which returns are necessary for statistical purposes. |
| | | (8.)—'Rule,' is defined to mean a rule formally made and duly notified under sections 5 and 6 of the Bill. |
| | 4 | A power is given to the local Government to exempt any labour district from the provisions of the Bill. It is probable that Sylhet, and very possible that Cachar, may be able shortly to do without any special Labour law. |
| 4 | 5 & 6 | A distinction has been drawn in section 5 between those rules which either of the two local Governments concerned may be called upon to make for its own province, and those which the Lieutenant-Governor of Bengal alone, or the Chief Commissioner of Assam alone, will have to frame. The description of the subject matter of the rules has been made in some instances more precise, and in some more general. Any changes made in substance will be more conveniently noticed in connection with the sections of the law to which the clauses severally refer.<br>We would, however, specially draw the attention of Government to the importance of having all rules carefully framed as far as possible in consultation with the leading representatives of the interests affected by them. So much important detail is left to be regulated by rules that full publicity and opportunity of discussing their bearing should be given to those concerned before they are finally passed by Government. |
| | 7 | This is a new section, and provides that any sums advanced by any Government officer under certain sections of the Bill on behalf of an employer, a garden-sirdar, a contractor, or the master of a vessel, shall be recoverable under the Public Demands Recovery Act, VII (B.C.) of 1880, which it is presumed will be extended to Assam. If it is not so extended, the advances should be made recoverable by civil suit. |
| 5 | 8 | All contracts under the Act, and all arrears of wages due under such contracts, are made, as at present, a charge upon the estate, and will be transferred therewith. When the labourer contracts to labour upon any one of several estates belonging to the same employer, it is provided that the contract is to be a charge upon the estate on which the labourer may for the time being actually labour. |
| 6 | 9 | The present Act enables a native, when *above* the age of 16 years to make a valid contract under the Act. It is proposed to say *of or above* that age, which is practically the way in which the law is interpreted and worked. |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| 15 | 10 | The section regulating the terms of a contract under the Act is brought into the preliminary chapter as being now intended to be a section of general application, regulating the contracts of local as well as of immigrant 'labourers.' We have raised the maximum limit of time to five years, and provided for payment in accordance with the system of task-work universal in the labour districts. It has been thought essential to provide for a minimum rate of wage for a fully completed task, and for a higher minimum in the fourth and fifth years of service, to which it is proposed that the contract term may now be extended. These changes have been made in accordance with the almost unanimous demand of those interested in the tea industry, concurred in by both the Chief Commissioner of Assam and the Lieutenant-Governor of Bengal. The argument in favour of the extension of term is that it is only thus that the employer can be fairly recouped his preliminary outlay and risk in importing the labourer and maintaining him while he gets acclimatized and learns his work. Looking, however, to the fact that a time-expired labourer can now always command a bonus on re-engagement, we consider that he is entitled to higher wages for the same *amount* of work in the later years of his service. He will, moreover, ordinarily be able to get through his task more quickly, and thus earn by extra work a full remuneration for his own improved capacity. Provision is further made for the deputation of a garden-sirdar on recruiting duty during the currency of his contract. |
| | | It is proposed that the contract should be either to work upon any specified estate, or upon any estate belonging to the employer in the same labour district, as the parties to the contract may desire. Labourers frequently wish to work on some particular and favourite garden. On the other hand they may be ready to work indifferently on any garden belonging to their employer in a certain neighbourhood. But where the engagement is thus general in terms, the labourer is protected against separation from his immediate family. |
| Schedule A. | Schedule A. | The form of contract has been simplified, so as to be suitable for execution either in the recruiting districts or in the labour districts. Specific reference is made in it to the supply of house accommodation, medical attendance, food-grain and rations, because those are matters which ought to be brought under the notice of the intending labourer. It is presumed that the rules of the local Government on the supplying of food-grains will be furnished to every registering officer, so that he may be in a position to give the necessary information to emigrants brought before him for registration. |
| 7 | 11 | Section 7 of the present Act prevents the execution of contracts to labour in the labour districts for more than one year, save under the provisions of the Act. In accordance with the policy already explained, section 11 of the Bill permits the free execution of contracts to be enforced only under the ordinary civil law. It also declares in unequivocal terms the legality of free emigration. But |

|---|---|---|
| | | it maintains the protection now given to emigrants (*i e.* to persons not natives of the labour districts), who may accept in ignorance an engagement to work on a garden declared unfit for the residence of such emigrants when on contract under the Act. |
| 8 | 12 | No change has been made in the general section regarding penalties; but to remove doubts, it is provided that all fines under the Act are to be recoverable under the Criminal Procedure Code. |
| 9 | 13 | The section relating to procedure on trial of offences remains unchanged. |
| 10 & 11 | 14 & 15 | The section conferring on the local Government the power of forbidding emigration and immigration under the Act has been made more general, but the previous sanction of the Supreme Government ought, in our opinion, to be required to an order affecting the interests of more than one province. |
| 12 | 16 | The section providing for the appointment of officers and their subordinate establishments is made more general in its wording. It will probably be found desirable to appoint more than one Superindendent of Emigration. The Government can under the rules define the duties of each; and it is provided elsewhere in the Bill that Government shall also determine which of the Superintendents under it shall license contractors, &c. The same remarks apply in respect of embarkation officers, and their power to license vessels. We attach special importance to the appointment of as many registering officers as possible. At present the delay and expense caused by there being only one Magistrate at each station empowered to register are very serious. There seems to be no good reason why the Civil Surgeon, or any other officer of Government, or any Honorary Magistrate, should not act as a registering officer. |
| 13, 16 to 32 | 17 to 44 | Sections 17 to 44 contain our scheme of sirdari recruiting. In the first place, the certificate granted to the sirdar must set forth the principal points in the instructions given him by his employer, and, as disobedience in respect of certain of these instructions will subject him to penalties, he is required to accept and sign the certificate in the presence of the Inspector or a Magistrate of the labour district. The certificate will be in force for 12 months; but if the employer finds that any sirdar is a good recruiter, he may, with the consent of the Inspector or Magistrate of the Labour District, renew his certificate from time to time. The certificate need not be countersigned by the Magistrate of the recruiting district; nor is the sirdar bound to take his recruits for registration to such Magistrate. He *may* do so if most convenient, or he may start on his journey with them, and put them on contract at any registering station to which he may come on his way to the labour districts: provided only that he puts them on contract before he leaves the province of Bengal. This provision is intended to save delays, and to enable an employer to secure the registration of his labourers at the place where he may find it most |

| | | convenient to keep a 'local agent.' The Government of Bengal will, it is hoped, multiply the facilities of registration by recognizing as many stations as possible. It is not proposed that special stations should be set apart for the registration of emigrants belonging to particular tracts of country. But no doubt in practice the tendency will be to put emigrants on contract at such places as Raneegunge and Hooghly, where there would ordinarily be a break in the journey; Raneegunge being the station where Chota Nagpore emigrants would take advantage of the railway, and Hooghly being the place where emigrants booked through to the Northern Bengal State Railway might be required to cross the river, so as to avoid Calcutta. The garden-sirdar will take emigrants with him out of their own district at his proper risk. If they decline on reasonable grounds to contract when brought before a registering officer, they will be returned to their homes at the employer's expense. No medical examination as to an emigrant's fitness to labour will be made as a matter of course; but if the employer wishes to secure such an examination, he will only have to note this on his sirdar's certificate, and the registering officer will see that the instruction has been attended to. Any Government medical officer will be bound to make the examination on payment to him of a fee of eight annas per labourer; or the employer or his local agent may make their own arrangements with any qualified medical man. An emigrant who unreasonably refuses to contract after money has been spent in bringing him to a district other than his own, will be liable to penalty. Any registering officer may prevent the emigration of any native brought before him who seems unfit to travel, or affected with disease dangerous to others, if on medical examination these facts are established. Garden-sirdars are to be allowed to make their own arrangements for the accommodation of their emigrants; and any central depôts provided by them will be subject only to reasonable sanitary supervision. No restriction will be imposed on the number of labourers a sirdar may recruit; but every gang of 20 labourers going to the labour districts must be in charge of a responsible person, who will look after them and pay their way. To further economy, it is provided that a garden-sirdar may, with the consent of his employer's local agent, take charge of emigrants engaged for another employer, so long as his gang does not exceed twenty. Garden-sirdars failing to carry out their orders with reference to putting emigrants on contract, or deserting or embezzling moneys, or abandoning labourers *en route*, will be liable to prosecution wherever found, and the employer's local agent may prosecute in all such cases. The sirdar is made liable to minor penalties if he play into the hands of contractors, or have any working connection with contractors or contractors' subordinates. Every gang of labourers will be accompanied by a nominal way-bill, on which all casualties will be noted, and which will eventually be returned by |

| | | the employer to the Superintendent of Emigration. There with thus be a complete record of the working of the system of sirdari recruiting in the Superintendent's office, obtained with the minimum amount of trouble to all concerned. Any Magistrate or Embarkation Agent or Inspecting Officer *en route* may detain any labourer or dependent found unfit to travel, or diseased in a manner to be dangerous to others. If any employer desires to have his labourers brought through Calcutta and inspected by his agents there, this can be done under section 43, even although the contract may have already been executed at another registering station. |
| 33 to 51 | 45-66 | But little substantial alteration has been made in the sections relating to contractors and the operations of contractors' recruiting. Provision has been made, as above noticed, for the licensing of sub-contractors. The power of the Superintendent to cancel licenses during their currency for misconduct has been made more clear. The forms of licenses have been left to be regulated by rule. Contractors are to be bound to establish depôts wherever the Lieutenant-Governor of Bengal considers these necessary. They have also been made civilly liable for the conduct of their subordinates. The medical examination of intending emigrants has been restricted to ascertaining whether they are fit to travel and free from contagious disease. It has been made clear here (as well as in the chapter on sirdari recruiting) that the registration fee is to be paid on every native produced for registration, whether eventually rejected or not. The work imposed on a registering officer is greater in the case of a rejected than in that of an accepted labourer. |
| 52 to 60 | 67 to 76 | The sections for the regulation of contractors' depôts remain substantially unaltered. The functions of the Medical Inspector in connection with the depôt have been more clearly defined, and his examination of the labourers is confined to ascertaining their continued freedom from contagious disease, and their fitness to travel to the labour districts. In section 76 provision is made for the supply of way-bills to gangs of labourers sent from contractors' depôts in the same manner as in the case of sirdari gangs. |
| 61 to 94 | 77 to 99 | An important change has been made in the provisions relating to transport. The present law deals only with the transport of 'emigrants' as there defined; that is to say, labourers under contract, and natives of India under actual engagement to contract with some particular person, special provision being made in certain matters for the protection of the former class. In view of the fact that, if free emigration developes, the number of native passengers by river steamer and country boat who are under no actual engagement may form the majority of those travelling by such means of conveyance, it seems necessary to give the Government a power of enforcing general sanitary regulations without reference to the classification of passengers. Accordingly provision is made for licensing all vessels carrying more than twenty native passengers, and a power is taken in section 5 to make |

| Sections of Act VII (B C) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission |
|---|---|---|
| | | rules for the ventilation, cleanliness, and water-supply of all such vessels, and for their inspection on the Assam rivers. But, lest any such system of licensing should interfere unduly with the ordinary river traffic in country boats, the local Government is authorized to relieve any vessels or class of vessels from the obligation of obtaining license. This being the general principle on which the Chapter on 'Transport' has been framed, we proceed to notice a few of the modifications in detail. |
| | 77 | The transport of native passengers and emigrants to Chittagong must apparently be regulated by the Native Passengers Act of 1876; accordingly we have declared that the provisions of the Bill will not apply to such transport. |
| 62 & 63 | 78 & 79 | These sections are modified in accordance with the general principle above described; but the fee for license for a single voyage is reduced to a maximum of Rs. 16, instead of four annas per labourer carried, and provision is made for the grant of periodical licenses to vessels running regularly. It is probable, that very shortly there may be, if not a daily, at any rate a bi-weekly, accelerated steam service between Dhubri and Debrooghur. It would be intolerable to subject these vessels to measurement for license before every voyage, or to charge them a heavy license fee on each occasion. The provisions of the law to ensure punctual despatch, and prevent overcrowding have been modified to suit the new system. |
| 61, 67 & 68 | 83 | It is believed that, with a proper system of way-bills, it is unnecessary to maintain any express provisions of law for embarkation passes and lists. The way-bills of all gangs of labourers received on board should be kept by the master during the voyage, and the master (or medical officer) should enter on these all casualties occurring on board. He need then only submit such returns of "gangs" and casualties as the Government may by rule prescribe. The long nominal lists and multifarious passes, may be entirely dispensed with. |
| 69 & 70 | 84 & 85 | The arrangements for *labourers* on board must continue to be regulated by rule, but as under arrangements now coming into force the provisions and medical officer will be supplied by the steamer companies, these sections have been modified to meet the present requirements. All medical officers employed must hold a Government license, and be liable to removal for misconduct. |
| 72 | 87 | It is unnecessary to provide in the law for detention of vessels at all Magistrates' stations. The local Government can most conveniently arrange by rule all such points of detail, and the section has been modified accordingly. |
| 75 to 78 | 90 | The powers of an Inspecting Magistrate to detain vessels on account of disease among the passengers are restricted somewhat, in order to meet the requirements of the present accelerated service. |
| 81 to 88 | 95 | It is proposed to leave all the procedure for disembarking labourers, and despatching them to their destination, to be regulated by rules, which can be modified to suit local and varying circumstances. |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill | Explanatory remarks by the Commission |
|---|---|---|
| 89 | 96 | At present the Magistrate of the district or division can only depute a subordinate Magistrate to do inspection duty. It is proposed to allow him also to depute any medical or gazetted police officer. |
| 93 & 94 | ... | These sections are rendered unnecessary by the changes made in other parts of the draft Bill. |
| 95-99 | 100-102 | We propose in sections 27 and 61 to reduce the registration fee to a maximum of one rupee per head. In section 105 a similar fee is proposed for the registration of local contracts under the Act. In section 100 the same maximum is provided for the yearly rate. Looking to the large number of locally engaged labourers that are likely to come under the Act, it is probable that a very much smaller sum will bring in the income necessary to defray the cost of working the Act. We strongly recommend that the Government should adopt a sliding scale of registration fees with reference to the length of the contract term. It is not advisable to throw any obstacle in the way of the registration of local agreements under the Act, and if local contracts are generally made for one year only, it will be unfair to charge the full registration fee on every renewal. For the reasons set forth in the proceedings of our Fifth Meeting, to which we would specially invite a reference, we have decided to recommend that no more income should be raised by fees and rates than is actually sufficient to pay for the Government machinery required to work the Act. Any surplus accruing should, as in the case of the zemindari dâk cess, be appropriated to reducing the fees and rates for the following year. These sections are modified to give effect to these views; but the rate is made recoverable under the Public Demands Recovery Act, 1880. If that Act is not extended to Assam, the provisions of the present law may be restored. |
| | 103-106 | These sections provide for the execution of contracts under the Act by locally engaged labourers, whether immigrants or residents. |
| 98-105 | 107-111 | The provisions of the law regarding returns and registers to be made and kept by employers have been modified in the manner recommended by us at our Fourth Meeting. It is necessary for statistical purposes to provide for the submission of returns of imported labour in certain cases even when not on contract under the Act, and for the inspection of such labourers, and this has been done. The duties of Inspectors are left to be more particularly defined by rules. But we would suggest that in any such rules it should be provided that the Inspector shall, if possible, give notice of his intention to visit a garden for the purpose of mustering the labourers. It may often be very inconvenient to an employer to have to call them off their work without notice or preparation. |
| 106 to 109. | 112 to 116. | The procedure for regulating task-work, and the payment of the labourer, is made more precise; and while the employer is relieved of the obligation of submitting the schedule to the Inspector in the first place, the Inspector is empowered to order the alteration of anything that seems unreasonable, subject only to an appeal by the |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| | | employer to a Committee. As the employer will now under section 131 have an easy remedy in all cases of unlawful absence from work, we have made it clear that every labourer is entitled to his weekly day of rest, and to wages on that day. If he absents himself from work on other days, the proper course for his employer to follow is to report him to the Inspector, not to compel him to work on the only day he can claim for marketing or going about his own affairs. A new provision is inserted to to meet the case of labourers who, though not actually sick, are weakly and unable to earn as much as half the minimum rate of wage. |
| 110 to 112. | 117 to 120. | In the sections relating to "Incapacity to labour," a new provision has been made for occasional absences of the labourer, caused by sickness, not being of such a permanent character as to warrant the interference of the Inspector and the suspension of the contract. It is proposed to allow 30 days' grace on this account in the year on half-pay only, after which the days of absence will be added to the contract, unless the labourer shall refund the subsistence allowance drawn by him during absence. This section will only apply to absence from work caused by sickness; and seems therefore a concession which it is reasonable to make to the labourer, especially as we have below given the employer an easy remedy against unauthorised absence of other kinds. |
| 113 to 117. | 121 to 127. | The most important change under the heading "Necessary provision for labourers" is the omission from the contract of all reference to the supply of rice. In the prospect of emigrants from Behar forming in future a large majority of the labour force of the province, it seemed unreasonable to stipulate for the supply of rice only. On careful consideration of the whole question, we have come to the conclusion that the best plan is to give power to the local Government "to make rules for the supply to labourers of the staple food-grain suited to each class, when this is not procurable at reasonable rates in the local markets. The Government may, we think, be trusted to determine, on equitable principles, what are reasonable rates, and at what prices the employer should supply his labourers. Local circumstances vary so greatly that what may be reasonable in one district would be most unfair in another, but no doubt the matter would always have to be regulated by reference to the labourer's wage as the *ultimate* standard. We have also made provision for a modified system of rationing in exceptional cases. In the case of Behar labourers a reasonable system of rationing in the early months of service will, we believe, often prevent serious mortality. We recognise, however, all the difficulties attendant on the introduction of any such system; and our proposals are therefore of a moderate and tentative character. The wording of the section regarding hospital accommodation and medical attendance has been made more general, so as to enable the Government to sanction necessary arrangements in a manner as little burdensome as possible to individual employers. |

| Sections of Act VII (B.C.) of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| 118 to 120 | 128 to 130 | The only change in the chapter relating to localities unfit for the residence of labourers is that provision has been made for closing a garden against some particular *class* of labourers without barring the employment of all labourers. |
| 121 | 131 | At present the penalty for unlawful absence of the labourer from his work can only be enforced by complaint before a Magistrate. An employer cannot, however, spare time to make journeys to court every time one of his labourers plays truant. It is proposed therefore to allow him to submit to the Inspector a monthly list of defaulters, giving at the same time notice to each such defaulter that he has entered him in the list. The Inspector will, on his next visit, enquire into each case and endorse the days of absence on the contract, unless the labourer agrees to forfeit four annas for each day of absence. Prolonged and repeated absence may still be punished by a Magistrate, if the employer chooses to complain, and the penalties for this have been made more severe. |
| 122 | 132 to 134 | The sections regarding "desertion" have been modified in the manner recommended by the Chief Commissioner of Assam. The deserter may be arrested without warrant, but he must be taken to the nearest police-station where, after his statement and that of the captor have been recorded, he may be taken back to the estate of his employer. The Magistrate will, on perusal of the statements, judge if further enquiry is necessary and act accordingly. |
| | 135 | A new section has been inserted, providing a punishment for habitual drunkenness and wilful disregard of sanitary regulations. In most Colonial Ordinances cognizance is taken of the former offence: and as regards the latter, it seems to us that, where the consequence of sanitary neglect may be so serious to the employer, he should have some means of punishing wilful offenders against duly promulgated orders. |
| 128 | 141 | As recommended by the Chief Commissioner of Assam, rigorous imprisonment for one month has been provided as a possible punishment for enticing away or harbouring labourers. |
| 129 | 142 | Under the heading of 'Complaints by labourers,' it is provided that a labourer desiring to complain must be sent by his employer to the Inspector or Magistrate. But to prevent stoppage of work by the labourers complaining *en masse*, it is proposed that, if more than ten labourers come forward to complain, the employer shall send notice to the Inspector or Magistrate to come and enquire. The present Act only takes notice of complaints to an Inspector; but it seems desirable to extend the procedure under the chapter so as to allow complaints to any Magistrate. Such complaints would not always fall within the purview of the Indian Penal Code and Criminal Procedure Code or even necessarily have reference to a distinct offence under the Labour Act and Rules. The labourer should be allowed to bring anything that he feels to be a grievance before the nearest protective officer. When a labourer is sent in to make his complaint, the employer would |

| Sections of Act VII B.C. of 1873. | Corresponding sections of the Draft Bill. | Explanatory remarks by the Commission. |
|---|---|---|
| | | probably send a peon with him to prevent desertion. Provision is therefore made in section 142 for the award of compensation to the employer if the complaint is shown to be untrue or frivolous. |
| 134 | 147 | Provision is made for the *immediate* recovery of wages due to a labourer whose contract has determined. The employer has no right to keep such a man on his garden by detaining his wages. |
| 136, 138 | 149 | Instead of leaving the completion of the contract to be registered and endorsed by the Inspector, the obligation is thrown upon the employer of endorsing on the contract of each labourer the fact of its determination. The labourer will keep this as equivalent to a discharge certificate, and the other endorsements on the contract will show any new employer what the labourer's conduct has been during his former engagement. |
| 137 | 150 | The labourer is given the right to redeem the contract of any member of his family as well as his own, and the value now fixed for the unexpired period of the third year of any contract has been declared to extend to unexpired periods of the fourth and fifth years. |
| Schedules B to F | ..... | It is much more convenient to leave all *forms* to be laid down by rules of the local Government. |

15. In conclusion, we desire to urge upon Government, not merely in the interests of the tea industry, but in those of the whole province, the importance of devoting continued attention to the improvement of communications with and throughout the Labour Districts of the Assam and Surmah Valleys. We believe that it is in this way, rather than by any scheme of Government emigration, that the waste lands of Assam will ultimately be colonised and reclaimed. Every year sees an increase in the numbers of the resident population, brought there in the first instance to meet the requirements of tea cultivation. If communication is made easy, rapid, and cheap, we cannot doubt that in time there will set in a natural spontaneous emigration from the over-peopled districts of North Behar to the fertile rice-tracts of Assam. Every Behari labourer who can be kept in health during his contract term, and returned to his home as a garden-sirdar, serves as a living stimulus to bring about such a movement. It is to Behar and the North-West that the tea-planters must in the future mainly look for their supply of labour. It is to Behar and the North-West that the Government must look for the working population to reclaim the wastes of its North-Eastern Frontier. In this view we feel it right to place in the very foreground of all schemes of improvement (apart from the introduction of an accelerated river service, which the local administrations are already doing much to secure, and the making of good roads in the labour districts themselves), the completion of those links in the interprovincial railway system which will make it a simple and easy matter for the Behari labourer to journey to Assam for work, and which will at the same time serve to stimulate his settling there, by removing those sentimental ideas of distance and separation that more than anything else at present act as a deterrent upon voluntary and permanent emigration. We have the less hesitation in urging this matter, because experience seems to prove that almost *any* railway in Bengal must be a profitable investment for Capital. Already lines are under construction which will, when completed, link Bettiah, near the Eastern Frontier of the Ghazipore district in the North-Western Provinces, with Peepra Ghat on the eastern limit of Durbhunga. If that line were

continued through Purneah and North Dinagepore to Parbuttipore on the Northern Bengal State Railway, the whole of North Behar and the trans-Gangetic portion of the North-West Provinces would, when the Kawnia-Dhubri tramway is finished, be in direct railway communication with Assam. A line from Caragola to Parbuttipore would place the districts of South Behar, Monghyr, and Bhagulpore in an equally favourable position. Each of these lines would pass through tracts of country rich and fertile in ordinary years, but still not altogether secure against famine. Apart, therefore, from their value as emigration routes, they would serve the double purpose of bringing the surplus produce of those tracts more readily to market, and of insuring the districts through which they run against the worst effects of scarcity. On the other side of Bengal we would point out that almost everything has yet to be done to develope the trade of the teeming districts of Dacca, Mymensingh, Sylhet, and Cachar. The Government of Bengal is, we have reason to know fully alive to the great commercial and administrative value of the schemes to which we have referred; and we trust that it will lose no opportunity of pressing them upon the favourable consideration of the Government of India and of Her Majesty's Government.

## MINUTE BY MR. H. F. BROWN.

PARAGRAPH 15 alludes to an accelerated river service, which, the Committee has been informed, is being undertaken by Government. I am interested in river steamers. I agree that a daily and accelerated steam service to Assam would be an advantage to that district, and I am aware that European opinion in Assam is almost unanimous upon that point. That is natural. A similar, and probably equally unanimous, opinion prevails amongst passengers by other goods-carrying services, such as the P. & O Company for example. I do not agree that the proposed acceleration is so urgent as to demand Government interference—certainly not in competition with the liberal offers of private steamer companies.

The history of the river steamer companies is that, when plying on the Ganges, all but one were ruined by the competition of a State-guaranteed railway. The one survivor and another resuscitated company transferred their fleets to the Brahmaputra, where, after having, by much labour and expense, developed an important traffic, they are again threatened with State competition.

This tendency of the Government to engage in trade is alarmingly on the increase, and unless that policy be authoritatively reversed, no private enterprise can be regarded as secure. Thus, we should not be tempted, by the anticipation of special conveniences, to countenance a policy which must seriously interrupt the development of private enterprise in this country.

### *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act VII (B.C.) of* 1873.

THE Commission met at the Bengal Legislative Council Office on Monday, 20th December 1880.

PRESENT:

The President and all the Members of the Commission, and Mr. Forsyth, Assistant Secretary to the Government of Bengal in the Legislative Department.

The President intimated that he had caused to be furnished to each Member of the Commission a selection of the more important papers bearing on the working of Act VII (B C.) of 1873, and a note showing the history of previous legislation on the subject of emigration to the tea districts. Mr. Macaulay would supplement these papers by a note embodying the result of his recent visits to the recruiting districts of Chota Nagpore and Behar.

2. The President invited an expression of the views of the Members as to the order in which the various questions calling for consideration should be taken up, and as to the most convenient mode of reducing to shape the results of the discussions.

3. Responding to this invitation, Mr. Aitchison submitted a memorandum setting forth his individual opinions as to the policy which the law ought to follow in the matter of the recruitment and protection of labourers.

4. The Commission proceeded to discuss the general subject of free emigration and sirdari recruiting, being the first matter adverted to in Mr. Aitchison's paper.

5. It was agreed that, for the present at any rate, and while the subjects under consideration are of a wide and general character, the most convenient course to follow would be that one or more such subject should be discussed orally at each meeting, without any formal record of the conversation being made, and that, at the following meeting, each Member should come prepared to submit his proposals in a formulated shape for definite acceptance, rejection, or modification by the Commission as a body.

6. In accordance with this arrangement, Members were requested to be prepared at the next meeting of the Commission to submit definite suggestions in connection with the following points:—

Free recruiting; sirdari recruiting; registration of emigrants; medical inspection of intending emigrants; the appointment of local agents to control sirdari recruiters; the control of local depôts for sirdari emigrants in the recruiting districts; the position to be held by contractors in the future.

### *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act (VII. B.C. of* 1873).

SECOND MEETING OF THE COMMISSION.

*Thursday, 23rd December* 1880.

PRESENT:

The President and all the Members, and Mr. Forsyth.

The Commission took into consideration a Note circulated by the President, containing a series of proposals on the subjects of free emigration, sirdari recruiting, contractors, and local agents. The President intimated that Mr. Macaulay concurred in the Note which had been drawn up after discussion with him, and in view of all that had passed at the first meeting of the Commission.

2. On the subject of free emigration the Commission adopted unanimously the following proposition :—

I. *Any person* coming into or residing in the labour districts, not being an imported labourer under the (new) Act, may enter into a labour contract under the Act for any term permitted by the Act. The employer shall notify the making of each such contract, and shall forward the contract itself for registration to the Inspector within one month from the date of its execution ; but it shall not be necessary for the purposes of such registration that the employer should send the contracting labourer before the Inspector : provided that the Inspector may, on his next visiting the garden on which such labourer is employed, cancel any such contract, if the labourer come forward and show good cause for this, but not otherwise. It shall be open to the employer, instead of himself putting the labourer on contract as above provided, to produce the intending labourer before the Inspector or before any Magistrate, and have the contract executed in the presence of such Inspector or Magistrate, and attested by him. No contract so attested shall be liable to be cancelled by the Inspector in the manner above provided.

3. It is implied in the foregoing proposition that the Act need take no cognizance of persons emigrating to the Labour Districts of their own free will, even though they may procure the means of doing so from an employer of labour, provided that no contract or engagement to contract is recognized as subsisting between the emigrant and his would-be employer. The employer takes all the risk of any advances he may make, and recover them, if at all, only as an ordinary debt. It was resolved that the proposition should be held to apply to all classes of free immigrants, time-expired labourers, and local labourers whom it was desired to bring under the provisions of any special local contract law, such as may be hereafter proposed for embodiment in the new Act. It remains of course open to any such labourer to enter only into an ordinary civil contract, and to any employer to engage his local labourers only under the sanction of the ordinary contract law.

4. On the subject of contractors and their recruiters, it was resolved that, while it was very desirable to get rid absolutely of the whole system, it was better to effect this indirectly by making sirdari recruiting more simple and effective. The following proposition was adopted :--

II. The provisions of the existing law on the subject of contractors and their recruiters shall be maintained, subject only to such alterations in detail as may be rendered necessary by the other changes proposed in the law, or may be suggested by past experience.

5. As a matter of general principle, it was resolved that the Act should be simplified as much as possible in the earlier chapters, regarding such subjects as contractors, recruiters, and transport, by giving a power to Government to make and revise rules providing for all points of detail.

6. On the subject of sirdari recruiting, the following propositions were adopted :—

III.—Employers may appoint any contract labourer, male or female, in their employ to act as a sirdar-recruiter.

IV.—Every such sirdar shall receive from his employer a certificate, in which shall be set out clearly—

(*a*) the name of the employer and of the sirdar ;
(*b*) the estate for which the sirdar is authorized to engage labourers ;
(*c*) the remuneration the sirdar is to receive while on recruiting duty ;
(*d*) the number of labourers he is authorized to engage ;
(*e*) the terms he is empowered to offer them ;
(*f*) the place at which he is to register and put them on contract ;
(*g*) whether he is required to have them medically examined as to their fitness for labour before registration ;
(*h*) the local agent (if any) to whom he is to report himself for orders ;

(*i*) the amount of money advanced him, or for which he is to account;

(*j*) the term of absence allowed him from the garden,

(*k*) such other special conditions or directions as the employer may deem necessary.

The certificate must be produced by the sirdar before the Inspector or the Magistrate of the district or sub-division in which the employer's estate is situated, and be signed and accepted by him in the presence of such Inspector or Magistrate, who shall himself countersign the certificate, unless he consider that the sirdar is an improper person to be employed as a recruiter, when he may refuse his countersignature. The certificate shall, subject to any special limitations imposed by the employer, hold good for the term of one year from the date thereof, but may be renewed on the application of the employer to the countersigning Inspector or Magistrate, without the personal appearance of either the employer or the sirdar.

V.—The sirdar shall be liable to punishment on conviction before a Magistrate in any district where he may be found, and on the prosecution of his employer, or his attorney, or his local agent (as defined below), for failure to report himself to a local agent, failure to return within the specified term, or failure to account for moneys advanced (the penalty to be fixed in the Act; but such provision shall not interfere with any penalty to which the sirdar may be liable under the Penal Code, provided that he shall not be twice punished for what is practically the same offence).

VI.—The sirdar's certificate may be cancelled, and he himself punished by fine, on conviction by any Magistrate, on the complaint of the employer or his local agent, for the following offences:—

(*a*) If he make over any labourers recruited by him to any contractor or contractor's recruiter, or to the sirdar or local agent of any other employer.

(*b*) If he allow any labourers recruited by contractors or their recruiters to share the accommodation provided by him for his employer's labourers, or place his employer's labourers in any contractor's depôt.

VII.—The sirdar must either himself accompany the labourers recruited by him to the labour districts, or send with them some competent deputy approved by the employer's local agent, or, if there be no local agent, by the registering officer in the district of recruitment.

VIII.—The sirdar may, subject to the conditions of his certificate, recruit any number of labourers; but there shall be at least one sirdar or deputy sirdar in personal charge of each gang of 20 labourers (exclusive of dependents) despatched from the recruiting district. With the written consent of the local agent of his employer, a sirdar or his deputy may take charge of the labourers of other employers proceeding to the labour districts, up to the aforesaid limit of 20 for the amalgamated gangs. There shall be no restriction on gangs travelling together, provided that each is in personal charge of a sirdar or his deputy.

IX.—The sirdar may have his labourers registered and put on contract either in the district of recruitment, or at any one of such registering stations on the way to the Labour Districts as the local Government may from time to time appoint for that purpose.

X.—Any such registering officer as is referred to in the preceding proposition may decline to register any labourer, if it appear that the labourer does not understand the terms of the contract, or is for any reasonable cause unwilling to enter into the same; and if the district in which such labourer is produced before him is not the district of the labourer's recruitment, may cause him to be returned to such district at the cost of the employer of the recruiting sirdar

XI.—Any labourer who, without reasonable cause or excuse, refuses to enter into contract after being brought before a registering officer in any district other than the district of his recruitment, shall, on

conviction before a Magistrate, be punishable with fine, which shall not exceed the expense incurred on his account by the sirdar or his deputy, up to a maximum of Rs. 20.

XII.—For each labourer produced before any duly authorized officer for registration, there shall be paid a fee of Rs. .

XIII.—Any registering officer, and any Superintendent of Embarkation, may, if himself a medical man, examine, and if not himself a medical man, send for examination by such, any labourer or dependent who may appear to him unfit to travel, or affected with any disease dangerous to others: and if such labourer or dependent be on examination pronounced to be unfit to travel, or so diseased as to be dangerous to others, he may be detained in hospital until his recovery: after which he shall be forwarded to the labour district or returned to his home as the employer may request. All costs of such detention and forwardal or return to be borne by the employer. No fee shall be charged for the medical examination under this proposition. Near relations of any labourer or dependent detained shall have the option of remaining with him.

XIV.—If the employer, in his sirdar's certificate, has directed a medical examination of the labourers before registration, the registering officer shall satisfy himself that the sirdar has carried out this instruction. Such medical examination may be made by any medical officer in the service of Government, on payment of a fee of eight annas for each labourer examined, or by any qualified medical man, on such terms as the employer may arrange. The medical examiner shall, if so required, satisfy himself that the labourer is in a fit state of physical health to journey to and undertake agricultural labour in the labour district, and shall in all cases grant the sirdar an acknowledgment of the fee paid to him on account of each labourer examined.

XV.—Failure on the part of the sirdar or his deputy to put the labourer on contract as above provided, in accordance with the terms of his certificate, or abandonment of the labourer anywhere on the road to the labour district, or failure to supply the labourer with proper food and accommodation on the way, shall warrant any Magistrate in returning the labourer to his home at the expense of his employer, and render the sirdar liable to punishment on conviction before a Magistrate.

XVI.—Any sirdar proposing to collect labourers at any central spot, with a view to their subsequent despatch to the labour districts, shall notify to the Magistrate of the district or sub-division the position and nature of the accommodation provided for such intending labourers. Such Magistrate shall have power to inspect such accommodation, or cause it to be inspected and visited from time to time, in order to see that proper sanitary arrangements are made, such as would be enforceable under any law for the regulation of municipalities in the district in question, but shall not otherwise interfere. Such Magistrate shall, however, have power to order the release of any intending labourer unwillingly detained, or deemed by a medical officer unfit to travel, or so diseased as to be dangerous to others.

XVII.—For the better control of his sirdars, any employer may apply to the local Government to license a local agent or agents to represent him in the recruiting districts or elsewhere. One local agent may represent any number of employers, but the name of each such employer shall be distinctly specified in the license. Additional names shall be inserted in the license only by the Magistrate of the district or sub-division in which the agent works, in accordance with the orders of Government passed on the application of such additional employers. No person holding a contractor's license shall be licensed as a local agent.

XVIII.—Local agents shall be competent to prosecute sirdars for breach of the conditions of their certificates, and shall generally represent their employers in all matters connected with the engagement of labourers. Their licenses may be cancelled by the Magistrate of the

district (subject to an appeal to Government), if it be shown to his satisfaction that they have employed contractors' recruiters to engage labourers, or permitted any contractors' labourers to use the accommodation provided for sirdars' labourers, or allowed any sirdar under their control to transfer labourers to contractors or their recruiters, or to any other employers, or themselves taken over any sirdars' labourers for despatch to any other employer, or failed to see that any orders of the Magistrate under proposition XVI have been duly carried out by any sirdars under their control.

XVIII.—A local agent holding a license under proposition XVII may be specially licensed by Government to engage labourers in any particular district direct and without the intervention of sirdars for any employer specified in his license.

### *Proceedings of the Commission appointed to amend the Labor Districts Emigration Act, VII (B.C.) of* 1873.

### THIRD MEETING OF THE COMMISSION.

*27th December* 1880.

PRESENT:

The President, and all the Members, and Mr. Forsyth.

THE Commission considered, settled, and finally approved the record of the proceedings at its last meeting. On the question raised by Dr. Grant, whether a sirdar recruiting labourers should be bound to register them in the district or at the *first* registering station passed by him, it was held to be undesirable to impose any such limitations. Registration would ordinarily take place where the employer had his local agent, and it was obviously to the interest of the employer to save the risk of unnecessary expense in returning a labourer to his district under the orders of the registering officer, by having him put on contract as soon as possible.

2. The Commission then proceeded to discuss a joint note by Messrs. Hare and Aitchison, on the subject of the labour contract and other cognate matters. The following propositions were unanimously agreed to:—

I.—Contracts under the Act may be for any term desired by the parties, up to a maximum limit of five years.

II.—The minimum rate of wages shall be prescribed by the Act, and shall for the first three years of the contract be, in the case of men Rs. 5 per mensem, and in the case of women Rs. 4 per mensem for a completed daily task, and at those rates for tasks not completed in proportion to the work actually done. In the fourth and fifth years of the contract the minimum rate of monthly wages for the same amount of task work shall be Rs. 6 in the case of men and Rs. 5 in the case of women.

III.—Every employer shall from time to time fix the daily tasks to be executed by his labourers, and shall frame a schedule of the same, and file a copy of every such schedule in a book which shall be open to the examination of the Inspector. A copy of each such schedule in the Bengali language shall be posted at the door of the pay office or some other convenient place accessible to the labourers. But it shall not be necessary to obtain the previous sanction of the Inspector to the schedule, and it shall not be necessary to send him a copy of the same unless he shall so request. The minimum payment for each daily task shall be the quotient resulting from dividing the minimum monthly wage of the labourer concerned by the whole number of days in the current calendar month.

IV.—No labourer shall be bound to work more than six days in one week, or more than six hours consecutively, or more than nine hours in any one day; and the labourer shall, on one day in seven, receive wages as for a full task done, without being required to work for the same. The employer shall, on six days in each week, provide for each labourer work sufficient to enable him to earn at least his minimum daily wage. Failing such due provision of work, the labourer shall be entitled to claim his minimum daily wage; but no such payment need be made to any labourer who absents himself on any working day for his own pleasure or convenience.

V.—The Inspector shall have power at any time, if he considers any schedule of daily tasks, or any part thereof, to be unreasonable, to order in writing a reduction of the same. The employer, if dissatisfied with the Inspector's order, shall be at liberty, after in the first place carrying it out, to request a reference to a Committee constituted in the manner provided in section 108 of the present Act. The decision of the Committee shall be final. The Inspector may, notwithstanding the existence of such a general schedule of tasks as is above provided for, order that any individual labourer who is from weakness unable to earn by his labour the sum of 1½ annas per diem, shall receive subsistence allowance at the rate of 1½ annas per diem, or diet on a scale to be approved by the Inspector.

3. The Commission considered that the foregoing provisions in regard to the contract and the regulation of labour would fully meet the requirements of tea-planters, without being unfair to the labourers. It was deemed undesirable to fix any higher minimum rate of wage than Rs. 6 in the later years of contract, because to do so would disturb the existing rate for local labour in many parts of the labour districts. At the same time it was believed that if care were taken that no increase in the amount of task-work were allowed, merely on the ground of increased efficiency of the labourer, labourers in their fourth and fifth years, and even earlier, would generally be able to earn much more than the minimum wage. Dr. Grant suggested for consideration that the higher minimum (of Rs. 6 and Rs. 5 for men and women respectively) might be given in the third year of contract; but a strong opinion being expressed by other members that the rates proposed above were fully as high as the tea industry could afford, it was resolved to maintain the proposition in the foregoing shape (II).

4. The Commission discussed the provisions of Chapter XI of the existing Act, regarding *Incapacity for labour*. It was agreed to supplement section 110, which empowers the Inspector to suspend the contract of labourers temporarily unfitted for labour, by the following proposition:—

VI.—Any labourer may absent himself from work, on account of sickness, for a period which shall not exceed the number of 30 days in any twelve calendar months, reckoning from the date of his contract, and shall receive for each such day of absence subsistence allowance at the rate of 1½ annas, or, if in hospital, sick diet on a scale to be approved by the Inspector.

If the absence is for sufficient reason prolonged beyond the number of 30 days in any one year, subsistence allowance or sick diet shall be supplied as above, but each such day of absence in excess of 30 may be added to the term of the contract, unless the labourer shall refund to the employer the sum of 1½ annas for each such day of absence in excess of 30. The employer shall be bound to give to the labourer a written notice when he has been in this manner absent from work for the permitted number of 30 days, and the Inspector shall from time to time, when visiting the garden, endorse on the labourer's contract, after such enquiry as may be necessary, the number of days which he has thus to make good.

It was held that the foregoing was a reasonable way of providing for cases of casual absence from sickness, section 110 being left to meet prolonged incapacity from serious illness, pregnancy, and similar causes. The Commission saw no reason for altering the provisions of sections 110, 111, or 112 of the present Act.

5. Chapter XII of the Act, regarding "*Necessary provision for labourers*," was then discussed. At present Government has, under section 4, clause 12 of the Act, power to make rules regarding the supply of *rice*, which is the only article of food that the employer is bound under section 113 to provide for his labourers. The Commission, in view of the large number of Behar coolies now likely to go to the labour districts, and after considering the other provisions of Chapter XII, agreed to the following propositions:—

VII.—The Government shall be empowered to make rules to provide for the supply to the labourers by their employers of the staple grain ordinarily used by each class of labourers, when this is not procurable at reasonable prices in the local markets near the gardens. The local Government shall from time to time determine, either generally or for each district or part of a district, what shall be deemed to be reasonable prices in the local markets, and the prices at which food-grains shall be supplied by employers.

VIII.—The Inspector shall have power to order that (*a*) any particular class of labourers on any garden, or (*b*) all the labourers on any particular garden, shall be furnished with rations by their employer for any period dating from their arrival on the garden up to three months. The Inspector may exempt any individual labourer from the effect of any such general order, if it be shown that he is able to earn a full wage, and desires to provide himself with proper food. The Inspector may at any time order that any individual labourer shall be put on rations for any term up to six months, and may from time to time renew such order. The scale of rations shall in all cases be determined by the Inspector, who shall also direct whether they are to be given cooked or uncooked. The cost of each labourer's ration, calculated at current rates as determined from time to time by the Inspector, shall be deducted from any wages earned by the labourer during the period for which the Inspector's order is in force. Any person buying labourers' rations, and any labourer selling his rations, shall be punishable with fine or imprisonment, on conviction by any Magistrate.

IX.—The employer shall not be bound by law to provide hospital accommodation on every garden, or to entertain a particular class of medical attendant for any specific number of labourers. The law shall merely provide that the employer shall satisfy the Inspector that sufficient accommodation has been provided and is available for his labourers within a reasonable distance of their habitations, and that due provision has been made for their medical care and treatment. The Local Government shall have power to make rules regarding these points, providing for central hospitals, circle doctors, and the payment by employers of charges for treatment of their labourers in any Government hospital.

X.—In other respects the provisions of chapter XII of the Act call for no change.

Proposition VIII embodies the conclusions of the Commission as to the extent to which it is safe to go in the introduction of the system of rationing advocated by Dr. DeRenzy and the Chief Commissioner.

### *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act VII (B.C.) of* 1873.

FOURTH MEETING OF THE COMMISSION.

*Thursday, 30th December* 1880.

PRESENT:

The President, and all the Members, and Mr. Forsyth.

THE Commission considered, settled, and finally approved the record of the proceedings at its last meeting.

2. Chapter XIII of the Act, relating to "*Localities unfit for the residence of Labourers*," was then considered. The President pointed out that, as the law now stands, under section 118 it is only when a garden appears unhealthy from natural causes—"climate, situation, or condition"—that the opinion of a committee is invited to determine the question of its being closed. Under section 119, when a high mortality induces the local Government to order a medical officer to investigate its causes, it is only if this mortality be shown to arise from the want of due care and precaution, and of the adoption of proper and available sanitary measures on the part of the employer, that the Government can order the garden to be closed; but it can give this order without any reference to a committee. The Commission, after deliberation, resolved that no change was necessary in the provisions of chapter XIII, beyond embodying in section 118 the provisions of Assam Regulation IV of 1877, under which a garden may, if necessary, be closed against any particular class of labour, without being altogether prevented from employing imported labour, or other labour under the Act.

3. The Commission next considered chapter XIV of the Act,—"*Offences committed by Labourers.*" To meet the case of unlawful absence from work, it was decided that section 121 of the Act, providing a penalty on a conviction for such absence before a Magistrate, should be amended in accordance with the following proposition:—

> I.—Instead of proceeding before the Magistrate, the employer may certify to the Inspector, on or before the 15th of each month, the names of all or any of his labourers unlawfully absent from work during the preceding calendar month, and shall at the same time notify the fact that he has done so to each labourer concerned. The Inspector shall, when next visiting the garden, enquire, in the presence of the labourer charged, into each such case of unlawful absence, and shall endorse such days of unlawful absence on the labourer's contract, and add them to the term of the contract, unless the labourer shall consent to forfeit to his employer the sum of four annas for each such day of absence. If any labourer has been unlawfully absent from work for more than seven days, he may be prosecuted before a Magistrate, and on conviction may be sentenced to lose all claim to wages for the period of such absence, and to forfeit to his employers the sum of four annas for each such day of absence, and may be further rigorously imprisoned for a term not exceeding fourteen days: and if his unlawful absence has extended to twenty days in any two consecutive months, this period of imprisonment may be extended to one month.

4. It was decided to adopt the recommendations of the Chief Commissioner on the matter of "*Desertion*" (section 123 of the Act), as set forth in paragraph 26 of his Secretary's letter No. 2065 of the 28th October 1880, that is to say —

> II.—An employer may arrest a deserting labourer without warrant, wherever found, in any part of the labour districts, provided he be not found in the service of another employer. The employer shall forthwith take such arrested labourer to the police-station nearest to the place of arrest, and there the statements of both parties shall be recorded and forwarded for orders to the Magistrate having jurisdiction. The employer may then convey the labourer direct to the garden. The Magistrate may, however, if he think fit, summon both parties before him, and require the employer to proceed by complaint, as provided in

the latter clauses of section 122. If the garden be not situated within the jurisdiction of the Magistrate to whom the statements are in the first instance forwarded by the police, such Magistrate shall at once send them for disposal to the Magistrate within whose jurisdiction the garden lies.

5. The Commission considered the advisability of recommending the repeal of section 121 of the Act, under which the labourer's contract is cancelled after he has actually suffered six months' imprisonment for desertion. It was resolved that the section should stand, the cases in which it comes into operation being rare, and such as are probably most equitably met by the cancellation of the contract.

6. It was decided, in accordance with the recommendation of the Chief Commissioner, to adopt the following modification of section 128 :—

III.—The punishment for enticing away, harbouring or employing, or attempting to entice from his employment, any labourer under contract, shall be fine (the whole or any portion of which may be awarded to the labourer's employer) or rigorous imprisonment which may extend to one month, or both.

7. The following proposition was also adopted :—

IV.—Any labourer guilty of habitual drunkenness, or wilfully disregarding any sanitary regulation approved by the Inspector and duly notified for the guidance of the labourers, shall be liable, on conviction by a Magistrate, to fine which may amount to Rs. 5, or rigorous imprisonment which may extend to one week.

The offence of habitual drunkenness is taken cognizance of in several of the colonial ordinances, and is a subject of complaint on many gardens. Looking to the responsibility placed on the employer of carrying out proper sanitary regulations, and the risk he runs of having his garden closed on account of preventible mortality, it was considered only fair to give him the means of punishing recusant labourers who may set at defiance any sanitary order endorsed by the Inspector as proper and necessary.

8. The Commission next considered chapter XV of the Act, relating to "*Complaints made by Labourers.*" It was decided that sections 129 and 130, which require the employer to give notice to the Inspector if any labourer wishes to complain, and section 130, which provides a penalty for untrue or frivolous complaints, should be modified in accordance with the following proposition :—

V.—If any labourer desires to make a complaint to the Inspector or to any Magistrate, the employer shall be bound forthwith to send him to the Inspector or Magistrate: and if the complaint is, on enquiry, declared to be untrue or frivolous, the labourer may be sentenced to pay reasonable compensation to his employer, besides making good the days of his own absence.

9. It was resolved that section 134, which provides for the award to the labourer of wages in arrear for two months, *plus* compensation for their being withheld, should be modified so as to cover also the case of wages withheld for *any* period after the determination of a labourer's contract.

10. The Commission next considered chapter XVI, relating to "*Determination of Contract.*" The question of making the grant of a certificate of discharge compulsory on the employer, in every case of determination of a contract, was discussed, and its decision postponed. In the matter of the redemption of contracts the following proposition was adopted :—

VI. The value of the unexpired term of contract for purposes of redemption shall be deemed to be the aggregate amount of one rupee for every month of the unexpired portion of the first year, of three rupees for every such month of the second year, and of five rupees for every such month of the third, fourth, or fifth years of the original term of the labourer's engagement.

11. After considering chapter IX of the Act, regarding "*Inspectors' Returns and Magistrates' Inspections,*" it was resolved as follows :—

VII.—Returns shall be submitted by employers in such form and at such times as the local Government may by rule direct, it being understood that every endeavour will be made to render this obligation as little troublesome as possible to employers.

VIII.—Returns shall be submitted for all gardens employing any labourers under the Act, and such returns shall embrace all persons working on such gardens, whether under the Act or not, who are not actually natives of the labour districts. Returns may also be required for all gardens employing persons who are not labourers under the Act, if such persons are not natives of the labour districts.

IX.—Employers shall keep in addition to the register of labourers prescribed by section 102, a monthly pay register showing the actual earnings of each labourer, all deductions made from such earnings, and all balances due to each labourer; such pay register to be open to the Inspector or any Magistrate visiting the garden

X.—The duties of the Inspector may be left to be defined by rule.

*President.*

## *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act VII (B.C.) of* 1873.

### FIFTH MEETING OF THE COMMISSION.

*Monday, 3rd January* 1881.

PRESENT:

The President and all the Members.

THE Commission considered, settled, and finally approved the record of the proceedings at its last meeting.

2. The Commission then resumed consideration of the question of making discharge certificates compulsory. Some of the members expressed a fear that to force such certificates, as it were, on the labourers would needlessly suggest to them the idea of removing to another garden, and thus throw difficulties in the way of re-engagements. But as it was admitted that every labourer is even now perfectly aware of the very day on which his contract terminates, and looking to the check upon illegal enticement which the introduction of a system of regular "papers" would supply, the Commission eventually adopted the following proposition:—

I. When an employer or his representative enters into a contract under the Act with any number of labourers, the terms of which are the same for all the labourers engaged, it shall not be necessary for each labourer to execute and sign a separate contract, but it shall suffice if all the labourers sign one copy of the contract, to be retained by the employer. But *each* labourer shall receive a copy of the contract, to be kept by him, which shall be signed by the employer; and upon this shall be endorsed by the employer, on the determination of the contract, the fact and manner of such determination. Refusal to make such endorsement, on presentation of the contract for such purpose by the labourer, shall be punishable by fine; and the Inspector shall have power to make such endorsement if the employer declines to do so. Sections 136 and 138 of the Act shall be modified accordingly.

3. The Commission read and considered, in connection with Chapter VIII of the Act, correspondence and statements relating to the "Inland Labour Transport Fund." After considerable discussion the following propositions were adopted:—

I.—It is not desirable that the funds raised under the Labour Districts Emigration Act should be applied in any other way than in carrying out the immediate purposes of the Act itself. If funds are required for improving or opening out communications, and for such like purposes, these can be more equitably raised by either local or general taxation. The principles suggested by the Government of

India in its letter to the Government of Bengal, No. 103 of the 27th May 1880 (paragraph 3), are unanimously endorsed by all those directly interested in the tea industry, and ought, in the opinion of the Commission, to be accepted as conclusive.

II.—The maximum limit of the fees leviable under the Act should be reduced to one rupee per head for registration and capitation fees alike; but the actual fees imposed should be so regulated from year to year as to give, with the other receipts of the Fund, an income sufficient only to meet the cost of the necessary establishments and other ordinary charges of the Fund, being such as are contemplated either in the Act itself or in the Rules drawn up by Government to give effect to it. Any surplus income accruing should be applied in reduction of the rates of fees, and not otherwise.

4. The Commission observed that as capitation fees would be recoverable on account of *all* labourers under the Act, the income of the Fund from that source would probably be found sufficient for the purposes of the Act, if such fees were levied at the rate of eight annas only per head. The capitation fee should be made as low as possible, but the registration fee, which is paid once for all, might, if Government though fit, be levied at the maximum rate.

5. The official members of the Commission desired to have it recorded that they accepted the foregoing conclusions arrived at by the non-official members, on the ground that it was chiefly for those interested in the tea industry to say whether they were willing to tax themselves specially for the improvement of their communications.

6. The non-official members of the Commission desired to record their high appreciation of the steps taken by the Government of Bengal and the Assam Administration to open up communications with the labour districts. They believed there was no desire on the part of those they represent to raise the question as to how far the Government were justified in the past in expending on these objects the large balances at credit of the Labour Transport Fund. But they were not prepared to admit that the income of the Fund should be kept at a high level in the future, either to enable the Government to subsidize a river steam service, or to open up roads or railways. They also felt bound to point out that the districts in the Surma Valley have received no benefit whatever from the expenditure of the surplus balances to which those districts very largely contributed; and they suggested that if, on the adjustment of accounts as between Provincial Funds and the Labour Transport Fund, any balance accrued before the passing of the new Act were found to be in hand, a fair allotment should be made to local works in Cachar and Sylhet.

7. The Commission decided strongly to recommend the early completion of lines of railway communication from the recruiting districts of Behar to the labor district, as, for instance, (1) along some one or other of the lines of the northern emigration roads for North Behar emigrants, and (2) from Caragola *vid* Dinagepore for South Behar emigrants. They also considered it most desirable that the question of extending railway communication in the direction of the Surma Valley should be taken up by Government at an early date.

### *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act VII (B.C.) of* 1873.

### SIXTH MEETING OF THE COMMISSION.

*Tuesday, 4th January* 1881.

PRESENT:

The President, and all the Members.

THE Commission considered, settled, and finally approved the record of the proceedings at its last meeting.

2. The Commission commenced the examination of the earlier sections of the Act, and made the following notes :

(1.) *Section* 3 —The definitions of '*Emigrant*' and '*Labourer*' should be altered thus:—"'*Emigrant*' means any native of India of *the age of* 16 *years or upwards*, not being a native of the labour districts, who proceeds to such districts for the purpose of labouring therein for hire." "'*Labourer*' means any person who has entered into a contract with an employer under the provisions of this Act, or of Act VII (B.C.) of 1873, during the duration of such contract." "'*Dependent*' should be defined to include any women (not being women under contract), any children, and any aged or incapacitated relatives or friends accompanying any emigrant labourer with the consent of a contractor, recruiter, garden-sirdar, or local agent, as the case may be." The wording of the Act should be modified throughout with reference to these definitions. "'*Local Agent*' should be defined to mean any person licensed under the provisions of this Act as a local agent."

(2.) *Section* 4.—A power should be taken to make rules—

(*a.*) defining the duties of the Inspectors ; and

(*b.*) providing for the returns to be submitted by employers.

Clause (12) should be amended to provide for the 'supply of food-grains' (instead of rice only), and for the 'rationing system.' Much of the matter under the heading of "transport" might also probably be met by Rules.

(3.) *Section* 6.—Any person *of the age of* 16 *years or upwards* should be allowed to contract.

(4.) *Section* 7—Should be modified so as to show that—"Nothing contained in the Act shall prevent any native of India from entering into a contract to labour in the labour districts otherwise than under the provisions of this Act ; but no emigrant shall be bound to fulfil any contract of labour upon any estate, or portion of an estate, which has been declared unfit for the residence of labourers, or of the class of labourers to which he belongs under the provisions of section 118 or 119."

(5.) *Section* 9.—All fines under the Act should be made distinctly recoverable under the Criminal Procedure Code.

(6.) *Section* 10.—The Lieutenant-Governor of Bengal should have power to prohibit emigration from any district, or part of any district, in his jurisdiction, and the Chief Commissioner of Assam should have power to prohibit immigration to any labour district, or part of any labour district, either generally or as regards any particular class of immigrant : the sanction of the Government of India being required in either case. The section need not define the cases in which this power may be exercised.

(7.) *Section* 12.—Power to appoint registering officers and registering stations is required.

(8.) *Section* 13—Will require amplification to meet the propositions on sirdari-recruiting accepted by the Commission.

(9.) *Section* 15—Should run thus—

"A contract executed under the provisions of this Act shall in no case exceed the term of five years from the date of its execution. Every such contract shall be in the form in Schedule A annexed to this Act, and shall be reduced to writing, and shall specify the monthly rate of wages in money, the period of service, the name of the district in which the service is to be performed, and, if the labourer shall so desire, the name of the estate on which the labourer is to work. Provided that in no case shall the rate of monthly wages for the first three years of the contract term be less than Rs. 5 in the case of a man, and Rs 4 in the case of a woman, for a completed daily task regulated in accordance with the provisions of this Act : or less than Rs. 6 in the case of a man, and Rs. 5 in the case of a woman, for the same amount of task-work, in the fourth and fifth years of the contract term.

Provided further that nothing in the contract shall prevent the deputation of any labourer to act as a garden-sirdar for the purpose of recruiting other labourers, but all periods of absence on such deputation shall be included in the term of the garden-sirdar's labour contract.

(10.) The following form of contract was approved :—

This contract made under Act of between A. B. (hereinafter called *the labourer*) of the one part, and* [C. D. (*Agent* or *Local Agent* or *Garden-sirdar*) on behalf of] E. F. (hereinafter called the *employer*) on the other part, witnesseth that the said* [*Agent* or *Local Agent* or *Garden-sirdar* on behalf of the said] employer doth hereby promise the said labourer that if he, the said labourer, do remain and labour on the† $\frac{\text{X Y estate}}{\text{estates}}$ of his said employer in the labour district of for the term of years from the date of the execution of this contract, he the said employer will, from the date of the arrival of the said labourer on such estate(s) for the purpose of working as a labourer under the said Act pay or cause to be paid to the said labourer monthly wages at the rate of Rs.‡ , for a completed daily task regulated in accordance with the provisions of the said Act, and at those rates for tasks not completed in proportion to the work actually done, and that during such period he the said employer will faithfully comply with all rules regarding the supply of food-grains to the said labourer which the local Government may from time to time lay down : and this contract further witnesseth that the said labourer doth hereby, in consideration of the aforesaid promise, agree so to remain and labour for the said employer. In witness whereof the said parties to these presents have hereunto set their hands the day of 188 .

*Signature of labourer and of employer (or of his Agent, Local Agent, or Garden-sirdar.)*

*Form of Description of labourer.*

‡ State rates for various periods of contract.

On reconsideration, the Commission modified proposition I of its Fifth meeting, so far as to hold that it would be more convenient if a separate copy of the contract were executed in the case of each labourer.

(10) *Sections* 16 *to* 32—Must be altered to meet the propositions on the subject of sirdari-recruiting. It should also be provided that a garden-sirdar's certificate shall be liable to be cancelled by order of any District Magistrate, or Superintendent, or Inspector, if he be convicted of any criminal offence, or any offence under the Act.

(11.) *Sections* 33 *and* 38.—It should be made clear that the Superintendent may in his discretion cancel any contractor's or recruiter's license during its currency, subject only to an appeal to Government.

(12.) *Section* 40,—The conditions for grant of licenses to recruiters may be left to be regulated by *rule* in the manner proposed at pages 4 and 5 of Dr. Grant's letter No. 1676 of the 16th August 1880.

(13.) *Section* 42.—Recruiters shall be bound to register their emigrants in the district of recruitment as at present; but the medical examination shall only extend to the emigrant's fitness to travel.

(14) *Section* 43.—The procedure for registration should be adapted to the suggestions at page 6 of Dr. Grant's letter above referred to.

## VII

### *Proceedings of the Commission appointed to amend the Labour Districts Emigration Act VII (B.C.) of* 1873.

SEVENTH MEETING OF THE COMMISSION.
*Thursday, 6th January* 1881.
PRESENT:
The President, and all the Members.

THE Commission considered, settled, and finally approved the record of the proceedings at its last meeting.

2. The Commission resumed the consideration of the alterations required in some of the details of the present Act, and made the following notes:—

(1.) *Section* 21.—The register should also show the *dependents* of each labourer distinctly.

(2.) *Section* 24.—As each labourer will receive a copy of his contract, the last two clauses of this section are not required. But every garden-sirdar, bringing up a gang for registration, should present to the registering officer a nominal 'way-bill,' in a form to be laid down by Government, showing each labourer and his dependents in the gang. This should be attested as correct by the registering officer, and failure to obtain his signature should be made punishable. This way-bill should accompany the gang and be produced *en route* on demand made by any magisterial or police officer, or officer of the Emigration Department. It should be presented to the Embarkation Agent, who should note on it casualties up to that point, and countersign it as an embarkation pass. The sirdar should then make it over to the master of the vessel, who would keep it until the gang reached its landing place. The master should then note on it all casualties on board and make it over to the sirdar. (The medical officer of the steamer might also be required to certify on it the state of health of the labourers at leaving.) The sirdar should next present the way-bill to the Debarkation Officer for check and signature, and lastly make it over to his employer, who, after noting casualties since landing, with the date of arrival and condition of the gang, should transmit it to the Inspector for return to the Superintendent of Emigration.

A similar system of way-bills might be used for contractors' coolies, and the papers connected with transport be simplified considerably.

The registering officers need then only forward to the Superintendent abstract returns showing the numbers in each gang with the sirdar's name (or the contractor's and recruiter's, as the case might be), and similarly the masters of vessels need not submit a detailed embarkation list, but an abstract showing disposal of *gangs*.

In the case of gangs marching up, the way-bill should be submitted to the Superintendent of Embarkation if they pass through his station; but it will suffice if the employer note all casualties at the close of the journey, and forward the way-bill to the Inspector as above.

(3.) *Section* 33.—Contractors' agents in the recruiting districts might be licensed for a fee of Rs. 50.

(4.) *Section* 40.—The Superintendent should not grant a license to a recruiter unless satisfied by recent evidence that the Magistrate of the recruiting district approves of the man, and unless he is satisfied that accommodation has been provided in the district by the contractor employing the recruiter or by his agent for all labourers recruited by him.

(5.) *Section* 53.—The Medical Inspector should not enquire as to fitness to labour unless requested by the employer's agent or by contractor, and only then on payment of a fee of 8 annas.

(6.) *Sections* 62 *to* 66.—It would be better to license vessels generally for carrying 'native passengers' to the labour districts, taking powers in the Act to make any special provision required for labourers.

(7.) *Sections* 67 *and* 68.—The Embarkation Agent should have power to forbid the taking on board of any native passenger suffering from dangerous contagious disease. The *nominal* list might be dispensed with; a statement of the number of all native passengers not being labourers, and of all 'gangs' of labourers, being substituted.

(8.) *Section* 69.—Omit the words "under the supervision of the Embarkation Agent" in line 1, and "at the time of the embarkation of such emigrants."

(9.) *Section* 70.—Substitute a power to require any vessel to carry a medical officer licensed by the Superintendent, and require owners to dispense with the services of any medical officer on Superintendent's orders.

(10.) *Section* 72.—Stoppage need only be required at such places and for such times as Government may by rule prescribe.

(11.) *Section* 75—Should be modified to enable the Magistrate to direct the landing of any native passenger suffering from contagious disease.

(12.) *Sections* 76, 77, 82 *and* 83.—Expenses incurred by the Magistrate under these sections should be recoverable under the Public Demands Act.

(13.) *Sections* 81, 83, 84, *and* 85.—Much of the matter might be regulated by rules instead of cumbering the Act.

(14.) *Section* 95.—The pensionary and leave allowances of establishments should be made payable from the Fund.

ELEVENTH MEETING OF THE COMMISSION.

*Thursday, the 20th January* 1881.

PRESENT:

The President and all the Members.

THE Commission finally passed the draft Bill and signed its Report.

2. Mr. Brown requested that a Minute by him might be appended to the Report. On behalf of the Inland Steam Companies he felt bound to protest against any direct interference on the part of Government with the development of the river service to Assam. Papers had been communicated to the Commission, from which it appeared that Government was in fact starting an accelerated steam service on its own account from Dhubri. He heartily sympathised with the desire of all interested in Assam to see a swift river service inaugurated; but he objected strongly to this being taken up by Government, when private companies were both able and willing to start such a service on what appeared to him to be reasonable terms. One Company had, on the 6th December last, submitted proposals to Government, which he thought would, if known, be considered liberal.

3. Upon the President's moving "that the Commission do now dissolve," Mr. Brown moved, and Mr. Inglis seconded, a motion that the following resolution should first be placed on the record of the proceedings:—

*Resolved*—"That the thanks of the Members be tendered to their President, Mr. Mackenzie, in acknowledgment of the great assistance they have derived from his able conduct of the business in hand."

The motion was unanimously adopted by the votes of the Members.

4. The Commission was then dissolved.

GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

[Third Publication]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st January, 1881, and is hereby promulgated for general information :—

### ACT No. I OF 1881.

*An Act for the determination of claims to Táj Mahal's pension.*

Preamble.

WHEREAS, by a treaty dated the 24th Shaban 1244, Hijri, corresponding with the first day of March, 1829, and made between His Majesty the King of Oudh and the Government of the Hon'ble the East India Company, it was (amongst other things) agreed that a certain pension therein specified should be paid by the English Government to one Nawáb Táj Mahal therein named, and that if she should die leaving an heir or heirs the English Government might at its election continue as before such pension to her heirs, or make over to them the principal sum proportionate to such pension according to the rate thereinbefore mentioned;

and whereas the said Táj Mahal is now dead and doubts exist as to who are her heirs, and it is therefore expedient to provide for the appointment of a person to represent her estate for the purpose of receiving such pension;

and whereas the Secretary of State for India in Council is desirous of making over to the persons entitled to receive the said pension the principal sum proportionate thereto as provided in the said treaty, and it is expedient to empower the said Secretary of State in Council to capitalize the said pension pending the appointment of a person as aforesaid; It is hereby enacted as follows :—

Short title. Commencement.

1. This Act may be called "Táj Mahal's Pension Act, 1881"; and it shall come into force at once.

Certificate to be obtained by application to the District Court

2. Any person considering himself entitled to the said pension or any portion thereof may apply in writing to the Court of the District Judge of Lucknow (hereinafter called the District Court) for a certificate authorizing him to receive the same.

Form of application.

The application shall be in such form and shall contain such particulars as the Governor General in Council may from time to time, by rules to be published in the *Gazette of India*, direct.

Publication of application and notice to persons desiring to oppose it.

3. The District Court shall fix a day for hearing the application, and shall cause to be stuck up in the court-house, and otherwise published or made known at the expense of the applicant in such manner as it thinks fit, a copy of the application, with a notice stating the time and place at which it will be heard, and calling upon all persons claiming to have a better right than the applicant to the grant of the certificate to come in and oppose the application.

Procedure at hearing when no opposition.

4. On the day so fixed, or any subsequent day to which the Court may adjourn the hearing, the Court shall, if no person claiming to have a better right than the applicant to the grant of the certificate is present, hear the application; and if, after recording the evidence produced by the applicant in support of his claim, and making such further enquiry (if any) as it thinks necessary, the Court is of opinion that the applicant has established his claim, it shall make an order for granting him a certificate.

In the event of the applicant not having, in the opinion of the Court, established his claim, it shall make an order dismissing his application.

Procedure in case of opposition.

5. In any case in which any person claiming to have a better right than the applicant to the grant of the certificate is present, the Court shall, after hearing the application and recording the evidence produced by the applicant in support of his claim, hear such person and record the evidence produced by him in support of his claim, and shall then, after making such further enquiry (if any) as it thinks necessary, determine which of the parties (if either) has established his claim to the certificate, and shall make an order for granting the same accordingly.

In the event of neither party having, in the opinion of the Court, established his claim, the Court shall make an order dismissing both the application and the counter-claim.

Appeal to the High Court.

6. When any order dismissing an application under section four, or any order under section five, is made, an appeal by any party to the proceedings, who deems himself aggrieved by such order, shall lie to the High Court, which may make an order dismissing such appeal or granting a certificate, or otherwise reversing or varying the order of the District Court, as it thinks fit.

Period of limitation for appeal.

7. The period of limitation for an appeal under section six shall be sixty days from the date of the order appealed against.

In computing such period, and in all respects not herein specified, the limitation of such appeals shall be governed by the provisions of the Indian Limitation Act, 1877.

Form of certificate.

8. A certificate granted under this Act shall specify the payments which the person to whom it is granted is entitled to receive, and shall contain such other particulars as the Governor General in Council may from time to time prescribe in this behalf.

Effect of certificate.

9. Every certificate granted under section four, or section six,

and every certificate granted under section five, when the period of limitation fixed by section seven has expired without an appeal having been preferred against the order granting such certificate, shall, while it remains in force, be conclusive evidence against the said Secretary of State in Council of the right of the person to whom it has been granted to receive the payments specified therein, and shall, unless or until it is rescinded and the authority rescinding it has given to the said Secretary of State in Council notice of such rescission, empower such person to give to the said Secretary of State in Council a full discharge for any such payment.

No obligation to pay except on production of certificate.

10. The said Secretary of State in Council shall not be bound to pay the said pension or any portion thereof to any person claiming the same, except on the production by such person of a certificate, granted in the manner herein provided, authorizing him to receive the same.

Court may take security from grantee of certificate.

12. The Court ordering any certificate to be granted under this Act may, if it thinks fit, direct that before such certificate is granted, such security (if any) as it thinks necessary shall be taken from the person to whom such certificate is to be granted, for his rendering an account of the payments to be received by him in virtue of such certificate to any person who may be entitled to recover from him in manner referred to in section eleven the whole or any part of such payments.

Court may grant fresh certificate to person who has recovered by suit amount paid to holder of old certificate.

13. The District Court may, on the application of any person who has recovered by suit from the holder of a certificate granted under this Act the amount of any payment made to him in virtue of such certificate, grant a certificate to such person in supersession, wholly or in part, as the case may be, of the former certificate.

No appeal shall lie from any order under this section.

Effect of fresh certificate.

On the grant of a fresh certificate under this section the former certificate shall be deemed to be rescinded wholly or in part, as the case may be.

Proceedings to be regulated by Code of Civil Procedure.

14. In all proceedings under this Act the District Court and the High Court shall, as far as may be and except as herein otherwise provided, exercise the powers and follow the procedure conferred on, and prescribed for, a Court of first instance and a Court of appeal respectively by the Code of Civil Procedure: Provided that nothing contained in Chapter XLV of the said Code shall apply to any order made in any such proceeding.

Matters decided in civil suits to be treated as *res judicata*.

15. The provisions of section thirteen of the said Code shall apply to all cases under section five of this Act in which the question of heirship to the said Táj Mahal, having been directly and substantially in issue in a suit in a Court of competent jurisdiction between the claimants, or between parties under whom they or any of them claim, litigating under the same title, has been heard and finally determined by such Court.

Indemnity as to payments already made.

16. All payments heretofore made by or on behalf of the said Secretary of State in Council under the said treaty shall be deemed to have been made in accordance with law: Provided that nothing in this section shall affect the right of any person to recover by suit the amount of any such payment from the person to whom the same has been made.

Government empowered to capitalize the amount of the pension.

17. The said Secretary of State in Council may, pending the grant of a certificate as hereinbefore provided, invest in securities of the Government of India the principal sum proportionate to the pension of the said Táj Mahal according to the rate mentioned in the said treaty, and may invest the income from time to time resulting from such securities in like securities.

On capitalization, all claim to pension barred.

And, thereupon, all further claim to such pension and income shall cease, and the persons obtaining a certificate in manner hereinbefore provided shall be entitled, in lieu of such pension and income, to the securities aforesaid, together with the uninvested income (if any) which from the date of making such investment has resulted from such securities.

Arrears of pension accruing before capitalization to be invested.

18. The said Secretary of State in Council shall, without unnecessary delay, invest, in securities of the Government of India, all arrears of such pension due at the time of the passing of this Act, and all such arrears falling due thereafter, and before the investment of the principal sum aforesaid. When any such arrears have been so invested, all further claim in respect thereof shall cease, and the persons obtaining a certificate in manner hereinbefore provided shall, in lieu of such arrears, be entitled to the securities in which they have been invested and the income resulting therefrom.

## THE SCHEDULE.

(*See section 3*).

Cf. Act III of 1880, s. 27, cl. 6.

See sched. to Hon. draft, Nos. 1—8, 19, 24, 25, 39, 43.

1. The conservancy of the buildings, roads, drainage—channels and lands, the regulation and inspection of public and private necessaries, urinals, cess-pools, drains, and all places in which filth or rubbish is deposited, the prevention and cure of disease and the maintenance generally of the Fort in a proper sanitary condition.

2. The definition and prohibition of public nuisances and trespasses.

3. The regulation of public traffic and the picketing of animals.

4. The regulation of the sale of goods and the removal of property.

5. The maintenance of public peace and quiet, and the prevention of disorderly conduct.

6. The maintenance, in a neat and well-ordered state, of the buildings, roads, ramparts, parade-grounds and other parts of the Fort.

7. The apprehension, custody and trial of persons who are drunk and incapable.

8. The regulation of admission to, and residence in, the Fort.

9. The precautions to be taken against fire.

10. The keeping of animals.

## STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the punishment of certain petty offences when committed within the limits of Fort William. At present the Garrison Quarter-master of the Fort is in the habit of punishing camp-followers and other Natives connected with the Fort who are guilty of certain offences against the garrison rules; but the jurisdiction of this officer, though it has been long exercised, has recently been called in question. As it is necessary, on sanitary grounds and for the maintenance of order, that there should be some officer within the Fort legally empowered to punish persons guilty of acts or omissions of the nature of those now punished by the Garrison Quarter-master, the present Bill has been prepared. It is based on a draft submitted by the Government of Bengal, and comprises two main provisions: *first*, it empowers the Local Government to lay down rules with light penalties attached in respect of certain matters which correspond generally with the matters to which the present garrison rules relate; *secondly*, it provides for the appointment of a commissioned officer (to be called the Fort-Magistrate) with power to try persons guilty of breaches of these rules. The other provisions of the Bill are subsidiary to these. Those that appear to call for notice here are section 7, under which the present jurisdiction of the Presidency Magistrates is saved, and section 9, which validates all punishments which may have been heretofore inflicted by the Garrison Quarter-master. Lastly, the Bill exempts from its operation all persons subject to military law as it is thought that such persons can be more fittingly punished under such law.

The mean pressure, temperature, &c., are deduced from observations made at 6 h, 10 h, 16 h and 22 h and from the traces of the barograph and thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 8 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.
